Summary of Table of Contents

1	Explanatory Notes	12
1.1	Release Notes v6	12
1.2	New in Demscore version 6	12
1.3	The Demscore Codebook	13
1.4	Methodology	13
1.5	Citations	13
1.6	Missing Data	13
1.7	Download ID	14
1.8	Unit Identifier Variables	14
1.9	Thematic Dataset	14
1.10	Output Unit Identifier Variables in the Chosen Unit	14
2	COMPLAB	15
2.1	COMPLAB MIGPOL Historical Immigration Policies Database	15
2.1.1	Historical Policy	16
2.2	COMPLAB MIGPOL IMISEM	18
2.2.1	Immigration Proxy Labor Migration	19
2.3	COMPLAB MIGPOL Antidiscrimination Dataset	20
2.3.1	Anti-Discrimination	21
2.4	COMPLAB MIGPOL Antidiscrimination Raw Data	23
2.4.1	Anti-Discrimination	24
2.5	COMPLAB MIGPOL MIPEX	39
2.5.1	Antidiscrimination	40
3	QOG	43
3.1	QoG Environmental Indicators Dataset	43
3.1.1	The Environmental Democracy Index	43
3.2	QoG EU Regional Dataset Long Data	49
3.2.1	Demographics	50
3.3	QoG Standard Dataset Time-Series	51
3.3.1	Judicial	51
3.3.2	Political System	97
3.3.3	Gender Equality	98
3.3.4	Labour Market	108
3.3.5	Civil Society, Population and Culture	108
3.3.6	Religion	110
3.3.7	Private Economy	111
4	V-DEM	113
4.1	V-Dem Country-Year: V-Dem Full+Others v15	113
4.1.1	V-Dem Democracy Indices - V-Dem Mid-Level Indices: Components of the Democracy Indices	114
4.1.2	V-Dem Indicators - Elections	115
4.1.3	V-Dem Indicators - The Executive	117
4.1.4	V-Dem Indicators - The Legislature	118
4.1.5	V-Dem Indicators - The Judiciary	120
4.1.6	V-Dem Indicators - Civil Liberty	127
4.1.7	V-Dem Indicators - Civil Society	138

4.1.8	V-Dem Indicators - Exclusion	143
4.1.9	V-Dem Indicators - Legitimation	146

1 Explanatory Notes

1.1 Release Notes v6

Demscore provides worldwide free access to harmonized data on Democracy, Environment, Migration, Social Policy, Conflict and Representation from several of the world's most prominent social science research institutes. The interdisciplinary nature of Demscore data facilitates large-scale comparative analyses. This is essential to advance adequate policy responses to complex societal challenges associated with the Sustainable Development Goals (SDGs) and beyond, facing Sweden, Europe, and the world today.

With a firm commitment to transparency and openness, Demscore v6 enables users to gain comprehensive insights into various topics across the social sciences. The joint infrastructure ensures data integrity and quality at the highest international standards and maximizes usability in the measurement of contextual data with 25.000 variables across nearly all countries in the world, from 1750 to the present.

This creates critical time- and cost saving advantages in data collection, management, distribution, and not the least for end-users in the scientific community. Demscore's unique approach to translating and merging data scales up to more than 410.000 variable versions available in the infrastructure, storing more than 10 billion non-missing observations.

This collaborative effort between leading Swedish universities pushes the scale of social science data to a new level and offers unprecedented possibilities for interdisciplinary research and knowledge advancement.

These are the key features of Demscore:

1. **Customized Download:** A fully normalized, joint PostgreSQL database, sophisticated programming, and a user-friendly web-based interface for users to generate custom-designed datasets and codebooks for download.
2. **Translations and Data Merges:** Demscore currently offers more than 1100 merge options between datasets.
3. **Metadata:** Demscore takes information on and organization of metadata to new heights with the inclusion of customized codebooks, a detailed methodology document, and a comprehensive handbook.
4. **Handling of Missing Data:** Demscore pioneers in developing an innovative approach to tackle missing data. Researchers can now account for missing values with increased precision, leading to more robust and reliable analyses.
5. **Merge Scores:** Demscore introduces a unique merge mechanism. This powerful tool enables researchers to combine datasets effortlessly, uncovering connections and patterns that were previously hidden in isolated data silos.
6. **Thematic Datasets:** Demscore provides researchers with curated thematic datasets, each focused on a specific topic. These datasets bring together relevant variables from across the Demscore partners, facilitating in-depth investigations and comprehensive analyses of specific domains.
7. **Interactive Web Portal:** In addition to all the above, Demscore's web portal offers interactive visualization tools, user support and additional information on all partners and data sources.

For more information, please visit <https://www.demscore.se/> or contact contact@demscore.se.

1.2 New in Demscore version 6

A detailed description of changes and additions made for version 6 compared to version 5 can be found in the Methodology Document.

1.3 The Demscore Codebook

The autogenerated Demscore Codebook lists variable entries for those variables chosen by the user along with citation guidelines and licenses per variable.

The meta data is extracted from the codebooks per dataset stored in a table in the Demscore PostgreSQL database with one row per variable for all datasets. This table includes codebook entries, variable tags, labels, and other variable information in LaTeX format used to generate an automated codebook.

Demscore maintains a single set of standard entries for metadata across all datasets, to which all project members contribute their information. Additionally, variables within different datasets may have varying sets of additional information requirements specific to each dataset. These dataset-specific entries are also included, but they are presented as variable-specific metadata beneath the standard entries.

At the outset of the harmonization process, Demscore underwent a thorough variable name cleanup. This involved tasks such as replacing spaces or dots in variable names with underscores and converting all letters to lowercase. Notably, the original tags remain preserved and stored in the PostgreSQL table. Each variable in Demscore is accessible in both short and long forms. The short form comprises the cleaned version of the original variable tag, while the long form starts with the dataset name from which it originates, followed by the cleaned variable name.

For instance, the original name of the variable *MinisterPersonalID* from the H-DATA Foreign Minister Dataset is included as *ministerpersonalid* (short form) and *hdata_fomin_ministerpersonalid* (long form) in Demscore.

In addition, each dataset includes Demscore unit-identifier variables which are named according to the following naming scheme: Beginning with *u_*, followed by the name of the primary unit and finally the variable tag. The *year-* variable from the COMPLAB SPIN The Out-of-Work Benefits Dataset (OUTWB), which is part of the primary unit *u_complab_country_year* has the Demscore unit identifier name *u_complab_country_year_year*.

1.4 Methodology

For details on our methodology please see the Demscore Methodology document available for download on the Demscore website.

1.5 Citations

The Demscore project does not have a formal citation of its own. Hence, when using Demscore, we suggest that you cite the respective projects and datasets. We indicate how every dataset is to be cited in the autogenerated codebook you retrieve with your data download, both in the dataset description and the codebook entry for each variable. Most often it is sufficient to cite the dataset a variable originates from, but sometimes there is a variable specific citation listed in the codebook entry in addition to that. For these cases, please also add the variable specific citation to the reference list of your publication. Full references are linked in the codebook entries of the variables and listed in the codebook's bibliography. We suggest you to also cite the Demscore Methodology Document when using data retrieved through Demscore.

1.6 Missing Data

Demscore indicates different types of missingness for observations in the customized datasets:

Missing in original data = Whenever an observation in the original variable is a missing (NA, missing code such as 7777, blank cell), we preserve this missing value. When the original source has special codes for various types of missing, those are preserved.

Missing code: -11111 = Demscore code for observation is missing due to the translation/merge, i.e., missing data due to no data being included for this combination of identifiers in the end Output Unit.

Missing code: -22222 = No observation is merged/translated, but the original data contains information for these identifier combinations elsewhere. For these cases, we use a different code. The

user needs to consult the reference documents (Methodology Document Section 5.1. or the Demscore Handbook) to clarify why the translation to the identifier combinations in the end Output Unit was not possible.

Please note that an observation that is missing in its original output unit does not take the value -11111, but appears as NA/blank cell in the customized dataset.

1.7 Download ID

The download ID can be shared with other users for replication purposes. A user can type the download ID into the Demscore website and retrieve the same download selection and files as the original user. This ID is autogenerated for each download from the Demscore website and will always retrieve the same data, even if the Demscore version was updated in the meantime.

Download ID:

1.8 Unit Identifier Variables

An Output Unit is defined as an output format in which variables can be retrieved from one or more datasets through a strictly defined output grid. A unit table defining this output grid contains unit identifier columns with `u_` prefixes and the table is sorted based on these unit identifier columns and has a fixed number of rows. Unit columns are based on the columns that constitute the unit of analysis in a dataset. They are added to the original dataset and marked by a unit prefix (consisting of a `u_` and the dataset unit name) before the original variable name. Unit columns can contain slightly modified data, e.g., missing values are replaced by a default value. Sometimes we add additional columns to the unit table, for instance if a dataset includes both a `country_id` column with a numeric country code, we add the variable storing the full country name to the unit table as well for better readability.

1.9 Thematic Dataset

The thematic dataset Laws and Liberties provides a range of variables related to the rule of law and civil liberties, touching on aspects like access to justice, access to information, protection from governmental overreach, general rights, political influence on the judiciary, or equality before the law. It also includes variables containing information about crime and variables related to the institutional structure of the judiciary and the place of the judiciary within the broader political system. The purpose of the dataset is to provide researchers and policymakers with comprehensive, high-quality data on the extent of political and personal rights of citizens, the independence of the judiciary, and indicators on the impartial provision of justice.

1.10 Output Unit Identifier Variables in the Chosen Unit

`u_demscore_country_year_country`: The column is created based on V-Dem, H-DATA AND GW. It is based on the following datasets: H-DATA Information Capacity Dataset H-DATA Foreign Minister Dataset V-Dem Episodes of Regime Transformation Dataset V-Dem Country-Year: V-Dem Full+Others

`u_demscore_country_year_code`: NA

`u_demscore_country_year_year`: The column is created based on V-Dem, H-DATA AND GW. It is based on the following datasets: H-DATA Information Capacity Dataset H-DATA Foreign Minister Dataset V-Dem Episodes of Regime Transformation Dataset V-Dem Country-Year: V-Dem Full+Others

2 COMPLAB

Based at Stockholm University, the **Comparative Policy Laboratory (COMPLAB)**, provides vital policy data across three areas: environmental, social, and migration policy. The **Social Policy Indicators (SPIN)** database provides the foundations for new comparative and longitudinal research on causes and consequences of welfare states. Building on T.H. Marshall’s ideas about social citizenship, SPIN makes available comparative data on social rights and duties of citizens, thereby moving research beyond analyses of welfare state expenditures. The SPIN database is instead oriented towards analyses of institutions as manifested in social policy legislation. Data are carefully collected in a coherent and consistent methodological manner to facilitate quantitative research of social policy across time and space. To date, SPIN covers 36 countries, of which several have data on core social policy programs from 1930 to 2019. More information is available on the project’s website: <https://www.su.se/comparative-policy-laboratory/data/spin-1.644259>

GRACE, Governing the Anthropocene – Environmental Policy and Outcomes in a Comparative Perspective, is a longitudinal and comparative study on environmental governance has created a dataset of national policy responses for environmental management and protection in 37 countries for the period 1970-2022. <https://www.su.se/comparative-policy-laboratory/data/grace-1.645779>

The Migration Policy Database (MIGPOL) consists of a range of indicators compiled on behalf of leading data projects in the field of comparative migration policy research. It also contains original data on the rights of irregular migrants which will soon be added to Demscore. <https://www.su.se/comparative-policy-laboratory/data/migpol-1.645783> Read more about COMPLAB here: <https://www.su.se/comparative-policy-laboratory/>

2.1 COMPLAB MIGPOL Historical Immigration Policies Database

Dataset tag: complab_migpol_impic_antidisc

Output Unit: COMPLAB Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns `country_code` (ISO 3-letter-code) and `year` or `country_nr` (ISO numeric code) and `year`. If necessary, an additional country column storing the countries’ full names is created as a unit identifier. Please note that we synchronize Complab country variable names in Demscore to `country_full_name`, `country_nr` and `country_id`.

Description: The Historical Immigration Policies Database (HIP) covers 31 countries from either 1789 or their independence until the 2010s. These countries include: Argentina, Australia, Austria, Belgium, Botswana, Brazil, Canada, Chile, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Kuwait, the Netherlands, New Zealand, Norway, Saudi Arabia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, the United Kingdom, the United States, and Venezuela. HIP enables scholars to reassess long-established views on the historical development of immigration policies, test new arguments with longitudinal data, and explore the relationship between immigration policies and slow-changing domestic and international variables. The dataset spans a wide range of variables important to political scientists, such as regime type, wealth (including natural resource wealth), and economic structure. Immigration policy dimensions—such as entry rules, rights, and enforcement—are coded separately, allowing researchers to analyze their long-term co-evolution. HIP is relevant to a broad audience in international relations and can be used to investigate immigration policy’s connection to topics like North-South relations, democratization and autocratization trends, and the rise of far-right ideologies and populism. It holds particular promise for the growing subfield of historical international relations, with its focus on the evolution of states, state systems, and international ties. More information is available on: <https://dataverse.harvard.edu/dataset.xhtml?persistentId=doi:10.7910/DVN/F7V8YL#>

2.1.1 Historical Policy

Variables in this section provides coding of immigration policies of 31 states from 1789/independence to 2010.

2.1.1.1 Immigrants Rights (rightscore)

Long tag: complab_migpol_hip_rightscore

Original tag: hip_rightscore

Dataset citation: PETERS et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 4737, Percent: 27.27

Non-missing observations in chosen unit: Sum: 4521, Percent: 15.08

Lost observations in chosen unit: Sum: 216 Percent: 4.56

Description:

DESCRIPTION: Does the law mention what rights immigrants have once in the state? Are there racial/national origin discriminations? Does the government try to integrate immigrants or does it just expect them to assimilate? How easy is it to get permanent residency? Can immigrants access the social welfare system?

VALUES:

1 = Almost no legal rights; immigrants must leave state if they leave their job; cannot own property; cannot access the welfare state; they have to register; have no freedom of religion, no permanent residency, etc.

2 = Some rights but land ownership and ownership of companies restricted; limited access to the welfare state.

3 = Ability to change jobs freely; some ownership of real property or companies; some access to the welfare state; some racial discrimination in laws.

4 = Access to most welfare policies; few restrictions on ownership of property or firms.

5 = Total access to welfare state; voting rights without citizenship; no restrictions in property ownership; integration policies; no racial discrimination; few years to permanent residency.

MISSINGS:

Empty cell

COVERAGE:

1783-2010

2.1.1.2 Refugee Provisions (refexist)

Long tag: complab_migpol_hip_refexist

Original tag: hip_refexist

Dataset citation: PETERS et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 4750, Percent: 27.34

Non-missing observations in chosen unit: Sum: 4531, Percent: 15.12

Lost observations in chosen unit: Sum: 219 Percent: 4.61

Description:

DESCRIPTION: Has the first refugee law been introduced now or previously?

VALUES:

0 = No

1 = Yes

MISSINGS:

Empty cell

COVERAGE:

1783-2010

2.1.1.3 Asylum Provisions (asylcode)

Long tag: complab_migpol_hip_asylcode

Original tag: hip_asylcode

Dataset citation: PETERS et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 4747, Percent: 27.33

Non-missing observations in chosen unit: Sum: 4531, Percent: 15.12

Lost observations in chosen unit: Sum: 216 Percent: 4.55

Description:

DESCRIPTION: Does the law discuss asylum seekers? That is, migrants who are at the border or in the state claiming refugee status? How easy is it to gain asylum? What rights do asylum seekers and asylees have? Are they kept in detention centers? Are they repatriated? Is there only one asylum status or is there temporary protected status as well? What are the procedures and are there legal safeguards?

VALUES:

1 = No asylum.

2 = Extremely difficult process; asylum granted only in a few cases; little ability to work or access welfare state while awaiting determination; little recourse if not granted asylum; no temporary protected status; limited access for political refugees.

3 = Difficult process; asylum granted for more cases; some access to the welfare state or labor market; more recourse including ability to access courts if denied; some temporary protected status allowed.

4 = Fairly easy process; asylum granted to many groups; access to labor market and welfare system; access to courts and other procedures if denied; temporary protected status given to many groups.

5 = Easy process; asylum granted for most cases; access to labor markets and welfare state; constitutionally protected procedure; no need for temporary protected status because almost everyone gets asylum.

MISSINGS:

Empty cell

COVERAGE:

1783-2010

2.1.1.4 Deportation (decode)

Long tag: complab_migpol_hip_decode

Original tag: hip_decode

Dataset citation: PETERS et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 4666, Percent: 26.86

Non-missing observations in chosen unit: Sum: 4450, Percent: 14.85

Lost observations in chosen unit: Sum: 216 Percent: 4.63

Description:

DESCRIPTION: How easy is it to deport an immigrant? What safeguards exist? Does the

state engage in mass expulsions or pay people to leave the country?

VALUES:

1 = No appeals process; many deportable offenses, including losing one's job.

2 = Administrative process with few checks; fewer deportable offenses.

3 = More checks on the process and even fewer deportable offenses.

4 = Judicial checks on process including going to the highest court in the land and/or very few deportable offenses.

5 = Almost no deportable offenses and clear judicial checks.

MISSINGS:

Empty cell

COVERAGE:

1783-2010

2.2 COMPLAB MIGPOL IMISEM

Dataset tag: complab_migpol_imisem

Output Unit: COMPLAB Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns `country_code` (ISO 3-letter-code) and year or `country_nr` (ISO numeric code) and year. If necessary, an additional country column storing the countries' full names is created as a unit identifier. Please note that we synchronize Complab country variable names in Demscore to `country_full_name`, `country_nr` and `country_id`.

Description: The IMISEM dataset contains 828 indicators on the migration policies of 32 polities from Europe, South East Asia and Latin America and the Caribbean. The IMISEM project adopts a comprehensive view of migration policy that includes both its emigrant/ emigration and immigrant/ immigration sides, bridging for the first time the two sides of migration policy. Thus, the dataset includes indicators that measure emigration policies (exit policies and control of outflows), immigration policies (entry policies and control of inflows), emigrant policies (rights granted, services offered and obligations imposed on non-resident citizens), immigrant policies (mainly, rights granted to non-citizen residents) and citizenship policies (mainly, access to naturalization for immigrants and retention of citizenship by emigrants). The main sources used to complete the IMISEM questionnaires are legal sources (i.e., laws, regulations). Legal sources are complemented with secondary sources (for instance, policy reports) and interviews with experts. The IMISEM Dataset is one of the main outputs of the "The very Immigrant is an Emigrant Project (IMISEM)" funded by the Leibniz Gemeinschaft and carried out at the GIGA German Institute for Global and Area Studies between 2017 and 2020. IMISEM data was collected for the years 2017 to 2019 during this time. It is coded for 2018 in DEMSCORE to align with the country-year format of other datasets.

Dataset citation: Pedroza, Luicy (2022) "IMISEM Dataset" GESIS Data Archive DOI: 10.7802/2380

https://search.gesis.org/research_data/SDN-10.7802-2380?doi=10.7802/2380. Funding for MIGPOL was provided by grants from the Swedish Research Council (2021-00162_VR).

2.3 COMPLAB MIGPOL Antidiscrimination Dataset

Dataset tag: complab_migpol_impic_antidisc

Output Unit: COMPLAB Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns `country_code` (ISO 3-letter-code) and year or `country_nr` (ISO numeric code) and year. If necessary, an additional country column storing the countries' full names is created as a unit identifier. Please note that we synchronize Complab country variable names in Demscore to `country_full_name`, `country_nr` and `country_id`.

Description: The IMPIC Project offers sophisticated quantitative indices to assess immigration policies across time, countries, and policy fields, focusing on 33 OECD countries from 1980 to 2018. The current IMPIC datasets (version 2) cover immigration policies, which encompass government intentions and actions concerning the selection, admission, settlement, and deportation of foreign citizens within a country. IMPIC is structured by entry categories or “tracks” covering four immigration policy fields: labour migration (economic), family reunification (social), asylum/refugees (humanitarian), and co-ethnics (cultural). The IMPIC Antidiscrimination provides detailed information on antidiscrimination regulations across all 33 country cases. This dataset consists of scores that aggregate information of the IMPIC Antidiscrimination RawData file across tracks. The items cover the existence and type of anti-discrimination legislation regarding racial/ethnic, religious, and nationality discrimination. The type of legislation includes to what societal areas it applies and which specific acts it prohibits or protects, as well as enforcement mechanisms and the existence and jurisdiction of equality bodies. More information is available on the project’s website: <http://www.impic-project.eu/data/>.

2.3.1 Anti-Discrimination

The items in the Anti-Discrimination section cover the existence and type of anti-discrimination legislation regarding racial/ethnic, religious, and nationality discrimination. The type of legislation includes to what societal areas it applies and which specific acts it prohibits or protects, as well as enforcement mechanisms and the existence and jurisdiction of equality bodies.

2.3.1.1 Anti-discrimination grounds - Aggregated (s_g01)

Long tag: complab_migpol_impic_antidisc_s_g01

Original tag: impic_S_g01

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 604, Percent: 3.48

Non-missing observations in chosen unit: Sum: 585, Percent: 1.95

Lost observations in chosen unit: Sum: 19 Percent: 3.15

Description:

DESCRIPTION: For the years 2000-2018, were all residents legally protected from direct and/or indirect discrimination, and/or harassment and/or instruction to discriminate on the grounds of race and ethnicity, religion and belief, and nationality? By legal protection from discrimination on grounds of nationality (the third ground), we mean that nationality/citizenship is a protected ground in national law or established through case law. If the protection is only based on international standards or subject to judicial interpretation, please select 'no' for the respective grounds. S_g01 combines the values on R_g01 across the three tracks (=grounds), race and ethnicity, religion and belief, and nationality. VALUES: 0 = Yes, all three grounds 0.25 = Yes, two of the grounds 0.5 = Yes, only one ground 1 = None MISSINGS: Empty cell COVERAGE: 2000-2018

2.3.1.2 Prohibitions in law - Aggregated (s_g02)

Long tag: complab_migpol_impic_antidisc_s_g02

Original tag: impic_S_g02

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 520, Percent: 2.99

Non-missing observations in chosen unit: Sum: 501, Percent: 1.67

Lost observations in chosen unit: Sum: 19 Percent: 3.65

Description:

DESCRIPTION: For the years 2000-2018, are the following acts legally prohibited? a) Public incitement to violence, hatred or discrimination on basis of race/ethnicity, religion/belief and/or nationality b) Racially/religiously motivated public insults, threats or defamation c) Instigating, aiding, abetting or attempting to commit such offenses d) Racial profiling VALUES: 0 = Yes, all four grounds 0.25 = Yes, three of the grounds 0.5 = Yes, two of the grounds 0.75 = Yes, only one ground 1 = None MISSINGS: Empty cell COVERAGE: 2000-2018

2.3.1.3 Application to private and public sector - Aggregated (s_g03)

Long tag: complab_migpol_impic_antidisc_s_g03

Original tag: impic_S_g03

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 526, Percent: 3.03

Non-missing observations in chosen unit: Sum: 507, Percent: 1.69

Lost observations in chosen unit: Sum: 19 Percent: 3.61

Description:

DESCRIPTION: For the years 2000-2018, does the anti-discrimination law concerning grounds of race/ethnicity, religion/belief and/or nationality apply to the following sectors? S_g03a and S_g03b are sub-indicators of S_g03. For S_g03a (private sector), this combines the general private sector and the private sector carrying out public sector activities (i.e. public transportation, infrastructure), meaning R_g03_a and R_g03_b. For S_g03b (public sector), this combines the general public sector and the police force, meaning R_g03_c and R_g03_d. S_g03 is the overall average. VALUES: 0 = Yes, all four 0.25 = Yes, three 0.5 = Yes, two 0.75 = Yes, only one 1 = None MISSING: Empty cell COVERAGE: 2000-2018

2.3.1.4 Fields of application - Aggregated (s_g04)

Long tag: complab_migpol_impic_antidisc_s_g04

Original tag: impic_S_g04

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 518, Percent: 2.98

Non-missing observations in chosen unit: Sum: 499, Percent: 1.66

Lost observations in chosen unit: Sum: 19 Percent: 3.67

Description:

DESCRIPTION: For the years 2000-2018, is discrimination outlawed in the following areas of life? If the protection is only based on international standards or subject to judicial interpretation, please select 'no' for the respective ground. S_g04 combines the values on R_g04 across the three tracks (=grounds), race and ethnicity, religion and belief, and nationality. It is the average of the subindicators S_g04_a to S_g04_e. The answers of g01 are consequential here. If a ground is not covered in a year in g01, it can also not be covered in one of the specific g04 areas. VALUES: 0 = Yes, all three grounds in all five areas 0.1 = ... 0.2 = ... 0.9 = Yes, only one 1 = None MISSING: Empty cell COVERAGE: 2000-2018

2.3.1.5 Enforcement mechanisms and Range of Sanctions - Aggregated (s_g05_6)

Long tag: complab_migpol_impic_antidisc_s_g05_6

Original tag: impic_S_g05_6

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 607, Percent: 3.49

Non-missing observations in chosen unit: Sum: 588, Percent: 1.96

Lost observations in chosen unit: Sum: 19 Percent: 3.13

Description:

DESCRIPTION: For the years 2000-2018, do the following enforcement mechanisms against discrimination on grounds of race/ethnicity, religion/belief and/or nationality exist? a) Shift in burden of proof in judicial civil or administrative procedures b) National legislation specifies that a court would accept situation testing and statistical data as evidence c) Financial assistance (by the state) or free court appointed lawyers and interpreters provided free of charge, where victims do not have the necessary means d) Legal entities with a legitimate interest in defending the principle of equality may engage in proceedings on behalf or in support of victims. Proceedings on behalf of victims means to represent a person or company in court, proceedings in support of victims means joining already existing proceedings. For the years 2000-2018, do the following sanctions exist to enforce anti-discrimination measures? Like before, please consider only anti-discrimination on grounds of race/ethnicity, religion/belief and/or nationality. S_g05_6 combines scores for g05 and g06. Five types of enforcement mechanisms and/or sanctions are evaluated together: all aspects of g6 are counted as one mechanism, the other four are the aspects of g05. VALUES: 0 = Yes, all five mechanisms/sanctions exists 0.2 = Yes, four of these 0.4 = Yes, three of these 0.6 = Yes, two of these 0.8 = Yes, only one 1 = None MISSING: Empty cell COVERAGE: 2000-2018

2.3.1.6 Equality bodies - Aggregated (s_g07)

Long tag: complab_migpol_impic_antidisc_s_g07

Original tag: impic_S_g07

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 591, Percent: 3.4

Non-missing observations in chosen unit: Sum: 572, Percent: 1.91

Lost observations in chosen unit: Sum: 19 Percent: 3.21

Description:

DESCRIPTION: For the years 2000-2018, is there a specialized equality body to combat anti-discrimination and if yes, which mandates does it have? a) An equality body to combat discrimination on the grounds of race/ethnicity, religion/belief and/or nationality exists b) Mandate to assist victims with independent legal advice on their case c) Mandate to assist victims with independent investigations of the facts of the case d) Mandate to engage in proceedings (judicial and/or administrative) on behalf of complainant e) Mandate to instigate own proceedings or investigations Note: If there is no dedicated specialised equality body, please answer 'no' to the questions about the mandate. VALUES: 0 = Yes, all five 0.25 = Yes, a) and two or three more 0.5 = Yes, a) and one more 0.75 = Only a) 1 = No equality body MISSINGS: Empty cell COVERAGE: 2000-2018

2.3.1.7 Equality policies - Aggregated (s_g08)

Long tag: complab_migpol_impic_antidisc_s_g08

Original tag: impic_S_g08

Dataset citation: Helbling et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 509, Percent: 2.93

Non-missing observations in chosen unit: Sum: 490, Percent: 1.63

Lost observations in chosen unit: Sum: 19 Percent: 3.73

Description:

DESCRIPTION: For the years 2000-2018, do the following equality policy mechanisms exist? a) Mechanism to systematically review legislation for compliance with anti-discrimination law (e.g. obligatory impact assessments, obligatory consultation or binding opinions of equality or advisory body) b) Obligation for public bodies to ensure that parties to whom they award contracts, loans, grants or other benefits respect non-discrimination c) Law provides for introduction of positive action measures on issues of ethnicity, race or religion that could also benefit people of immigrant background Like before, please consider only anti-discrimination on grounds of race/ethnicity, religion/belief and/or nationality. VALUES: 0 = Yes, all three 0.33 = Yes, two 0.66 = Yes, one 1 = None MISSINGS: Empty cell COVERAGE: 2000-2018

2.4 COMPLAB MIGPOL Antidiscrimination Raw Data

Dataset tag: complab_migpol_impic_antidisc_rd

Output Unit: COMPLAB Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns country_code (ISO 3-letter-code) and year or country_nr (ISO numeric code) and year. If necessary, an additional country column storing the countries' full names is created as a unit identifier. Please note that we synchronize Complab country variable names in Demscore to country_full_name, country_nr and country_id.

Description: The IMPIC Project offers sophisticated quantitative indices to assess immigration policies across time, countries, and policy fields, focusing on 33 OECD countries from 1980 to 2018. The current IMPIC datasets (version 2) cover immigration policies, which encompass government intentions and actions concerning the selection, admission, settlement, and deportation of foreign

citizens within a country. IMPIC is structured by entry categories or “tracks” covering four immigration policy fields: labour migration (economic), family reunification (social), asylum/refugees (humanitarian), and co-ethnics (cultural). The IMPIC Antidiscrimination provides detailed information on antidiscrimination regulations across all 33 country cases. This dataset consists of scores that aggregate information of the IMPIC Antidiscrimination RawData file across tracks. The items cover the existence and type of anti-discrimination legislation regarding racial/ethnic, religious, and nationality discrimination. The type of legislation includes to what societal areas it applies and which specific acts it prohibits or protects, as well as enforcement mechanisms and the existence and jurisdiction of equality bodies. More information is available on the project’s website: <http://www.impic-project.eu/data/>.

DESCRIPTION: For the years 2000-2018, do the following equality policy mechanisms exist? Mechanism to systematically review legislation for compliance with anti-discrimination law (e.g. obligatory impact assessments, obligatory consultation or binding opinions of equality or advisory body) VALUES: 0 = Yes 1 = No MISSINGS: Empty cells COVERAGE: 2000-2018

2.5 COMPLAB MIGPOL MIPEX

Dataset tag: complab_migpol_mipex

Output Unit: COMPLAB Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns country_code (ISO 3-letter-code) and year or country_nr (ISO numeric code) and year. If necessary, an additional country column storing the countries' full names is created as a unit identifier. Please note that we synchronize Complab country variable names in Demscore to country_full_name, country_nr and country_id.

Description: The Migrant Integration Policy Index (MIPEX) is a comprehensive tool used to evaluate, compare, and enhance integration policies in 31 countries across Europe and North America. It employs 148 policy indicators across 7 policy areas (labour market mobility, family reunion, education, political participation, long-term residence, access to nationality and anti-discrimination) to offer a multifaceted view of migrants' societal participation opportunities while assessing government commitment to integration. MIPEX helps determine whether all residents are afforded equal rights, responsibilities, and opportunities. The project is conducted by the British Council, the Migration Policy Group in Brussels and the Center for International Affairs in Barcelona with the involvement of 37 national-level organizations, including think-tanks, non-governmental organisations, foundations, universities, research institutes and equality bodies. Unlike indexes relying on expert opinions, MIPEX is based on public laws, policies, and research. It utilizes data from independent scholars and practitioners in migration law, education, and

anti-discrimination who assess each indicator based on publicly available documents. These scores are peer-reviewed and moderated for consistency across countries and time, with national experts contributing insights into policy changes and their rationales.

Dataset citation: Solano, Giacomo and Huddelston, Thomas (2020) “Migrant Integration Policy Index”. Funding for MIGPOL was provided by grants from the Swedish Research Council (2021-00162_VR).

3 QOG

The **Quality of Government (QoG)** Institute was founded in 2004 by Professor Bo Rothstein and Professor Sören Holmberg. It is an independent research institute within the Department of Political Science at the University of Gothenburg. QoG is comprised of about 30 researchers who conduct and promote research on the causes, consequences and nature of Good Governance and the Quality of Government (QoG) - that is, trustworthy, reliable, impartial, uncorrupted and competent government institutions. QoG's award-winning datasets focus on concepts related to quality of government, transparency, and public administration. The main objective of QoG's research is to address the theoretical and empirical problem of how political institutions of high quality can be created and maintained. A second objective is to study the effects of Quality of Government on a number of policy areas, such as health, the environment, social policy, and poverty. The QoG datasets draw on a number of freely available datasources. More information on how the variables are compiled for different QoG datasets can be found in the respective QoG codebooks available on their website. More information is available on the project's website: <https://www.gu.se/en/quality-government>

3.1 QoG Environmental Indicators Dataset

Dataset tag: qog_ei

Output Unit: QoG Country-Year, i.e., data is collected per country and year. That means there is one row for each combination of country and year in the dataset. This unit is identified using the `cname` column and the `year` column.

Description: The Quality of Government Environmental Indicators Dataset (QoG-EI) is a compilation of major freely available indicators measuring environmental performance of countries over time.

Dataset citation: Povitkina, Marina, Natalia Alvarado Pachon Cem Mert Dalli. 2021. The Quality of Government Environmental Indicators Dataset, version Sep21. University of Gothenburg: The Quality of Government Institute, <https://www.gu.se/en/quality-government>

Link to original codebook

License: The QoG datasets are open and available, free of charge and without a need to register your data. You can use them for your analysis, graphs, teaching, and other academic-related and non-commercial purposes. We ask our users to cite always the original source(s) of the data and our datasets.

We do not allow other uses of these data including but not limited to redistribution, commercialization and other for-profit usage. If a user is interested in such use or has doubts about the license, they will have to refer to the original source and check with them if this is allowed and what requirements they need to fulfill.

Be mindful that the original data sources are the only owners of their data and they can adjust their license without previous warning.

More detailed information on the dataset can be found at the following web page: <https://www.gu.se/en/quality-government/qog-data/data-downloads/environmental-indicators-dataset>

3.1.1 The Environmental Democracy Index

Dataset by: The Access Initiative (TAI) and World Resources Institute (WRI) The Environmental Democracy Index measures the degree to which countries have enacted legally binding rules that provide for environmental information collection and disclosure, public participation across a range of environmental decisions, and fair, affordable, and independent avenues for seeking justice and challenging decisions that impact the environment. The index evaluates 70 countries across 75 legal

indicators, based on objective and internationally recognized standards established by the United Nations Environment Programmes (UNEP) Bali Guidelines. EDI also includes a supplemental set of 24 limited practice indicators that provide insight on a country's performance in implementation. Link to the original source: <https://www.environmentaldemocracyindex.org/node/12732.html>

3.1.1.1 Affordable access to relief and remedy (Guideline 20) (edi_gaarr)

Long tag: qog_ei_edi_gaarr

Original tag: edi_gaarr

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent states ensure that the access of members of the public concerned to review procedures relating to the environment is not prohibitively expensive and to which extent they consider the establishment of appropriate assistance mechanisms to remove or reduce financial and other barriers to access to justice.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (20.1) To what extent are there legal mechanisms in place to ensure that access to review procedures relating to the environment for members of the public concerned is not prohibitively expensive?; (20.2) To what extent does the law provide assistance mechanisms to reduce financial barriers to access to justice?; (20.3) To what extent does the law provide assistance mechanisms to reduce gender-related non-financial barriers to access to justice?; (20.4) To what extent does the law provide assistance mechanisms to reduce other non-financial and non-gender barriers to access to justice?; (P20.1) In the last 5 years, has a public interest case relating to the environment or natural resources been filed which was supported by government legal aid?; (P20.2) In the last 10 years, have there been cases relating to the environment or natural resources where the costs of proceedings was awarded against a public interest complainant/plaintiff/petitioner (c/p/p)?; (P20.3) In the last 5 years have there been cases related to the environment or natural resources where the costs of proceedings were awarded in favor of a public interest complainant/plaintiff/petitioner (c/p/p)?

3.1.1.2 Alternative dispute resolution for environmental issues (Guideline 26) (edi_gadrei)

Long tag: qog_ei_edi_gadrei

Original tag: edi_gadrei

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states encourage the development and use of alternative dispute resolution mechanisms where these are appropriate. In scoring this indicator, "alternate dispute resolution mechanisms" include mediation, conciliation, or arbitration adopted by institutions as a means of resolving environmental disputes.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (26.1) To what extent does the law provide for the possibility to use alternative dispute resolution mechanisms to address violations of the right of access to environmental information, public

participation or cases of environmental harm?; (26.2) To what extent does the law provide incentives for the use of alternative dispute resolution mechanisms where these are appropriate?; (P26.1) In the last 5 years, has a public interest case relating to the environment or natural resources been solved by an alternate conflict resolution method (such as mediation, arbitration and conciliation)?

3.1.1.3 Awareness and education about remedies and relief (Guideline 23) (edi_gaerr)

Long tag: qog_ei_edi_gaerr

Original tag: edi_gaerr

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states provide adequate information to the public about the procedures operated by courts of law and other relevant bodies in relation to environmental issues.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (23.1) To what extent does the law require the State or State agencies or institutions to provide information to the public about court procedures relating to environmental issues?; (23.2) To what extent does the law require the State or State agencies or institutions to provide information to the public about review procedures relating to environmental issues provided by bodies other than courts of law?; (P23.1) Is there an easily understandable explanation of court procedures in the national language(s) on the website or office of the highest national court or the apex national environmental agency?

3.1.1.4 Broad standing (Guideline 18) (edi_gbs)

Long tag: qog_ei_edi_gbs

Original tag: edi_gbs

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states provide broad interpretation of standing in proceedings concerned with environmental matters with a view to achieving effective access to justice.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (18.1) To what extent does the law recognize broad legal standing in proceedings concerned with environmental matters?; (P18.1) In the last 5 years, have NGOs been granted legal standing by national courts in public interest environmental cases?

3.1.1.5 Effective enforcement (Guideline 22) (edi_gee)

Long tag: qog_ei_edi_gee

Original tag: edi_gee

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states ensure the timely and effective enforcement of decisions in environmental matters taken by courts of law and by administrative and other relevant bodies.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (22.1) To what extent does the law provide for the effective enforcement of criminal court decisions relating to the environment?; (22.2) To what extent does the law require the enforcement of criminal court decisions relating to the environment to be timely?; (22.3) To what extent does the law provide for the effective enforcement of civil court decisions relating to the environment?; (22.4) To what extent does the law require the enforcement of civil court decisions relating to the environment to be timely?; (22.5) To what extent does the law provide for effective enforcement of decisions relating to the environment taken by administrative and other relevant bodies?; (22.6) To what extent does the law ensure the enforcement of administrative decisions relating to the environment will be timely?

3.1.1.6 Fair, timely, and independent review (Guideline 19) (edi_gftir)

Long tag: qog_ei_edi_gftir

Original tag: edi_gftir

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states provide effective procedures for timely review by courts of law or other independent and impartial bodies, or administrative procedures, of issues relating to the implementation and enforcement of laws and decisions pertaining to the environment.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (19.1) To what extent does the law provide procedures for the review of issues relating to the implementation and enforcement of laws and decisions pertaining to the environment by courts or other bodies, or administrative procedures?; (19.2) To what extent does the law require review procedures regarding the implementation and enforcement of laws and decisions pertaining to the environment to be decided by impartial and independent courts or bodies?; (19.3) To what extent does the law require review procedures regarding the implementation and enforcement of laws and decisions pertaining to the environment to be timely?; (19.4) To what extent does the law require review procedures regarding the implementation and enforcement of laws and decisions pertaining to the environment to be fair and equitable?; (19.5) To what extent does the law require review procedures regarding the implementation and enforcement of laws and decisions pertaining to the environment to be open and transparent? (P19.1) In the last 5 years have there been sanctions or corrective actions imposed by a national court of law or other independent and impartial body, for violation of laws and decisions pertaining to the environment?

3.1.1.7 Information request appeals (Guideline 15) (edi_gira)

Long tag: qog_ei_edi_gira

Original tag: edi_gira

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states ensure that any natural or legal person who considers that his or her request for environmental information has been unreasonably refused, in part or in full, inadequately answered or ignored, or in any other way not handled in accordance with applicable law, has access to a review procedure before a court of law or other independent and impartial body to challenge such a decision, act or omission by the public authority in question.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (15.1) To what extent do the laws concerning environmental impact assessments, pollution control standards and permits, forest concessions, extractive industries, protected areas and terrestrial biodiversity, and environmental policy-making provide for access to a review procedure in cases where environmental information request have been denied?; (15.2) To what extent does the law make the review available to all natural or legal persons?; (15.3) To what extent does the law provide access to a review procedure before a court of law or other independent and impartial body in cases when an environmental information request has been denied?; (P15.1) Is there a court, tribunal or other independent or impartial body at the national level with a physical office to receive and process public complaints about the refusal of environmental information?

3.1.1.8 Public access to judicial and administrative decisions (Guideline 24) (edi_gpajad)

Long tag: qog_ei_edi_gpajad

Original tag: edi_gpajad

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states ensure that decisions relating to the environment taken by a court of law, other independent and impartial or administrative body, are publicly available, as appropriate and in accordance with national law.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (24.1) To what extent does the law require judicial decisions relating to the environment to be made publicly available?; (24.2) To what extent does the law require decisions relating to the environment taken by administrative bodies to be made publicly available?; (24.3) To what extent does the law require decisions relating to the environment taken by other independent and impartial bodies to be made publicly available?; (P24.1) Are the decisions of the last three environmental or natural resource cases decided by a national court, tribunal or other judicial body available to the public online or at the office of that court, tribunal or body?

3.1.1.9 Public participation appeals (Guideline 16) (edi_gppa)

Long tag: qog_ei_edi_gppa

Original tag: edi_gppa

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states ensure that the members of the public concerned have access to a court of law or other independent and impartial body to challenge the substantive and procedural legality of any decision, act or omission relating to public participation in decision-making in environmental matters.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (16.1) To what extent does the law entitle members of the public concerned to challenge the substantive legality of any decision, act or omission relating to decision-making in environmental matters which is subject to public participation?; (16.2) To what extent does the law entitle members of the public concerned to challenge the procedural legality of any decision, act or omission relating to decision-making in environmental matters subject to public participation?; (16.3) To what extent does the law require that a court of law or other independent and impartial body hear challenges to substantive and/or procedural legality?; (P16.1) In the last 5 years, have public interest environmental or natural resource cases been filed before a court, tribunal or other body? If court records are not public information, check media reports.

3.1.1.10 Right of public to challenge state or private actors (Guideline 17) (edi_grpcspa)

Long tag: qog_ei_edi_grpcspa

Original tag: edi_grpcspa

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The indicator measures to which extent the states ensure that the members of the public concerned have access to a court of law or other independent and impartial body or administrative procedures to challenge any decision, act or omission by public authorities or private actors that affects the environment or allegedly violates the substantive or procedural legal norms of the State related to the environment.

This indicator is an arithmetic average of expert answers to questions on a scale from 0 (worst) to 3 (best): (17.1) To what extent does the law give rights to the public concerned to challenge any decision, act or omission by public authorities that allegedly violates the procedural legal norms of the state relating to the environment?; (17.2) To what extent does the law give rights to the public concerned to challenge any decision, act or omission by private actors that allegedly violates the substantive legal norms of the state relating to the environment?; (17.3) To what extent does the law give rights to the public concerned to challenge any decision, act or omission by private actors that allegedly violates the procedural legal norms of the State relating to the environment?; (17.4) To what extent does the law require the challenges referred to in indicators 1-3 to be heard by an independent and impartial body?; (P17.1) Have there been cases in the last 5 years when civil society filed a lawsuit against a polluter in a national court?; (P17.2) Have there been cases in the last 5 years when civil society filed a lawsuit in a national court challenging a government decision, policy, or rule affecting the environment?

3.1.1.11 Justice Pillar Score (edi_jp)

Long tag: qog_ei_edj_jp

Original tag: edi_jp

Dataset citation: Povitkina et al. (2021)

Variable citation: World Resource Institute & the Access Initiative (2015)

Merge scores:

Non-missing observations in original unit: Sum: 70, Percent: 0.46

Non-missing observations in chosen unit: Sum: 69, Percent: 0.23

Lost observations in chosen unit: Sum: 1 Percent: 1.43

Description:

The Justice Pillar Score combines guidelines 'Information request appeals', 'Public participation appeals', 'Right of public to challenge state or private actors', 'Broad standing', 'Fair, timely, and independent review', 'Affordable access to relief and remedy', 'Prompt, effective remedies', 'Effective enforcement', 'Awareness and education about remedies and relief', 'Public access to judicial and administrative decisions', and 'Alternative dispute resolution for environmental issues', using an arithmetic average on a scale from 0 (worst) to 3 (best).

3.2 QoG EU Regional Dataset Long Data

Dataset tag: qog_eureg_long

Output Unit: QoG NUTS Region-Year, i.e., data is collected per European NUTS region and year. This means that every row in the dataset can be identified through a combination of region and year. The unit can be expressed using the columns `region_code` and `year`. The unit can also be expressed through a combination of the columns `nuts0`, `nuts1` `nuts2` and `year`.

Description: The QoG EU Regional dataset is a dataset consisting of more than 300 variables covering three levels of European regions - Nomenclature of Territorial Units for Statistics (NUTS): NUTS0 (country), NUTS1(major socio-economic regions) and NUTS2 (basic regions for the application of regional policies).

The QoG Regional Data is presented in three different forms available in separate datasets. The variable are the same across all three dataset besides a varying suffix (`_nuts0`, `_nuts1`, `_nuts2`) indication which NUTS level is represented.

All datasets are available in time-series format. The first one (The QoG Regional Data - Long Form) is a dataset where data is presented in the long form. The list of units of analysis contains regions of all NUTS levels.

Two other datasets are presented in the wide form for multilevel analysis. In the second dataset (The QoG Regional Data - Wide Form NUTS1) includes NUTS1 level as the unit of analysis and variables represent the values for this level and corresponding lower level – NUTS0. As an example, in this dataset the data is presented only for East Sweden(Ostra Sverige SE1), as a unit of analysis and has values for lower levels of this region - Sweden (SE).

In the third dataset (The QoG Regional Data - Wide Form NUTS2) the unit of analysis is NUTS2 level regions and variables provide values as for every unit of analysis, as well as for corresponding lower NUTS levels: NUTS1 and NUTS0. One example of unit of analysis in this dataset is Stockholm (SE11) and data for every variable will be for Stockholm, as well as for lower level regions - East Sweden (Ostra Sverige SE1) and Sweden (SE).

License: The QoG datasets are open and available, free of charge and without a need to register your data. You can use them for your analysis, graphs, teaching, and other academic-related and non-commercial purposes. We ask our users to cite always the original source(s) of the data and our datasets.

We do not allow other uses of these data including but not limited to redistribution, commercialization and other for-profit usage. If a user is interested in such use or has doubts about the license, they will have to refer to the original source and check with them if this is allowed and what requirements they need to fulfill.

Be mindful that the original data sources are the only owners of their data and they can adjust their license without previous warning.

More detailed information on the dataset can be found at the following web page: <https://www.gu.se/en/quality-government/qog-data/data-downloads/eu-regional-dataset>

3.2.1 Demographics

This category includes variables describing the demographic characteristics of a population, such as its size, life-expectancy, fertility rates and death rates.

3.2.1.1 Reported number of cases of burglary of private premises (eu_cri_bur)

Long tag: qog_eureg_long_eu_cri_bur

Original tag: eu_cri_bur

Dataset citation: Charron et al. (2020)

Variable citation: European Commission (2024)

Merge scores:

Non-missing observations in original unit: Sum: 0, Percent: 0

Non-missing observations in chosen unit: Sum: 92, Percent: 0.31

Description:

Reported number of cases of burglary of private premises. Domestic burglary is defined as gaining access to a dwelling by the use of force to steal goods.

3.2.1.2 Reported number of cases of intentional homicide (eu_cri_inthom)

Long tag: qog_eureg_long_eu_cri_inthom

Original tag: eu_cri_inthom

Dataset citation: Charron et al. (2020)

Variable citation: European Commission (2024)

Merge scores:

Non-missing observations in original unit: Sum: 0, Percent: 0

Non-missing observations in chosen unit: Sum: 95, Percent: 0.32

Description:

Reported number of cases of intentional homicide. It is defined as intentional killing of a person, including murder, manslaughter, euthanasia and infanticide. Causing death by dangerous driving is excluded, as are abortion and help with suicide. Attempted (uncompleted) homicide is also excluded. The counting unit for homicide is normally the victim (rather than the case).

3.2.1.3 Reported number of cases of robbery (eu_cri_rob)

Long tag: qog_eureg_long_eu_cri_rob

Original tag: eu_cri_rob

Dataset citation: Charron et al. (2020)

Variable citation: European Commission (2024)

Merge scores:

Non-missing observations in original unit: Sum: 0, Percent: 0

Non-missing observations in chosen unit: Sum: 94, Percent: 0.31

Description:

Reported number of cases of robbery. Robbery is a sub-set of violent crime (see above). It is defined as stealing from a person with force or threat of force, including muggings (bag-snatching) and theft with violence. Pick-pocketing, extortion and blackmailing are generally not included.

3.3 QoG Standard Dataset Time-Series

Dataset tag: qog_std_ts

Output Unit: QoG Country-Year, i.e., data is collected per country and year. That means there is one row for each combination of country and year in the dataset. This unit is identified using the cname column and the year column.

Description: The QoG Standard dataset is our largest dataset. It consists of approximately 2100 variables from more than 100 data sources related to Quality of Government. In the QoG Standard TS dataset, data from 1946 to 2024 is included and the unit of analysis is country-year (e.g., Sweden-1946, Sweden-1947, etc.).

3.3.1 Judicial

This category includes judicial indicators, generally covering legal rights granted by a state to its citizens and their compliance, as well as measures of crimes and the overall state of the judicial system.

3.3.1.1 Law: the independence of the judiciary is guaranteed (aii_q01)

Long tag: qog_std_ts_aii_q01

Original tag: aii_q01

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 1. In law, the independence of the judiciary is guaranteed.

A 100 score is earned where all the following conditions are met:

- 1) the law establishes that the judiciary is independent from the executive and legislative branches, and
- 2) the law establishes the judiciary's right, authority or mandate to review laws, issue judicial decisions, and choose the cases heard by courts.

A 0 score is earned where no such law exists, or a law exists but it does not include ALL of the elements described in 100.

3.3.1.2 Practice: the independence of the judiciary is guaranteed (aii_q02)

Long tag: qog_std_ts_aii_q02

Original tag: aii_q02

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 2. In practice, the independence of the judiciary is guaranteed.

A 100 score is earned where all the following conditions are met:

- 1) judges have the autonomy to interpret and review existing laws, legislation, and policies, and

2) judges operate without fear or favor, independent from other branches of government.

A 50 score is earned where any of the following conditions apply:

- 1) judges' autonomy to interpret and review existing laws is occasionally restricted, or
- 2) judges are occasionally subject to negative or positive political incentives (for example, judges are demoted/promoted or relocated to worse/better offices in retaliation/reward for making certain decisions).

A 0 score is earned where at least one of the following conditions apply:

- 1) judges rarely have the autonomy to interpret and review existing laws, legislation and policies, or
- 2) judges are routinely subject to negative or positive political incentives (for example, judges are frequently demoted/promoted or relocated to worse/better offices in retaliation/reward for making certain decisions).

3.3.1.3 Practice: national-level judges support the independence of judiciary (aii_q03)

Long tag: qog_std_ts_aii_q03

Original tag: aii_q03

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 3. In practice, national-level judge appointments (justices or magistrates) support the independence of the judiciary.

A 100 score is earned where all the following conditions are met:

- 1) national-level judges are chosen through a merit-based selection system,

2) they have security of tenure, and

3) they are disciplined/removed/transferred only through due process by a peer panel/independent oversight body.

A 50 score is earned where any of the following conditions apply:

1) national-level judges are occasionally appointed without following a merit-based selection system,

2) some judges are denied the security of tenure, or

3) occasionally judges are disciplined/removed/transferred without due process or the peer panel/independent oversight body occasionally includes representatives of the executive or legislative branches.

A 0 score is earned where at least one of the following conditions apply:

1) there's a merit-based selection system but it fails to require basic skills (ex. legal education, litigation experience, etc.) or is so weak that individuals with less merit are usually appointed over those with more merit,

2) there is no security of tenure, or

3) the due process usually involves the Executive or Legislative branches.

3.3.1.4 Practice: national-level judges give reasons for their decisions (aii_q04)

Long tag: qog_std_ts_aii_q04

Original tag: aii_q04

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 4. In practice, national-level judges give reasons for their decisions/judgments.

A 100 score is earned where all the following conditions are met:

- 1) judges routinely provide formal reasoning for their rulings,
- 2) their reasoning references the laws/jurisprudence they considered and the specific interpretation they gave them in relation to the case, and
- 3) their reasoning is public (for this indicator, national security exceptions are allowed).

A 50 score is earned where any of the following conditions apply:

- 1) judges occasionally fail to provide formal reasoning for their decisions,
- 2) the reasoning occasionally lacks references to the laws/jurisprudence considered or the respective judges' interpretations, or
- 3) it takes more than two weeks for citizens to obtain the reasoning after request.

A 0 score is earned where at least one of the following conditions apply:

- 1) judges rarely provide formal reasoning for their rulings, or
- 2) their reasoning rarely references the laws/jurisprudence they considered and/or the specific interpretations they gave them in relation to the case, or
- 3) the reasoning is not public.

3.3.1.5 Law: there is a supreme audit institution (aii_q05)

Long tag: qog_std_ts_aii_q05

Original tag: aii_q05

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 5. In law, there is a supreme audit institution.

A 100 score is earned where the law mandates the creation of a supreme audit institution or office of the Auditor General, tasked with auditing the government accounts.

A 0 score is earned where no such law exists.

3.3.1.6 Law: the independence of supreme audit institution is guaranteed (aii_q06)

Long tag: qog_std_ts_aii_q06

Original tag: aii_q06

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 6. In law, the independence of the supreme audit institution is guaranteed.

A 100 score is earned where all the following conditions are met:

- 1) the law establishes that the audit institution is independent from the executive and legislative branches,
- 2) the institution has the right, authority or mandate to audit any government account, issue recommendations and resolutions, and refer cases to the prosecutor's office, and
- 3) the institution has a consistent source of funding to operate.

A 0 score is earned where no such law exists, or a law exists but it doesn't establish ALL of the conditions described in 100.

3.3.1.7 Practice: the independence of supreme audit institution is guaranteed (aii_q07)

Long tag: qog_std_ts_aii_q07

Original tag: aii_q07

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 7. In practice, the independence of the supreme audit institution is guaranteed.

A 100 score is earned where all the following conditions are met:

- 1) auditors have the autonomy to audit accounts,
- 2) auditors operate without fear or favor, independent from other offices of government, and
- 3) they have a predictable source of funding that is consistent from year to year.

A 50 score is earned where any of the following conditions apply:

- 1) auditors usually have autonomy to audit any account but exceptions exist,
- 2) auditors are occasionally subject to negative or positive political incentives (for example, auditors are demoted/promoted or relocated to worse/better offices in retaliation/reward for not auditing/not auditing or issuing favorable/unfavorable resolutions), or
- 3) funding is occasionally inconsistent.

A 0 score is earned where at least one of the following conditions apply:

- 1) auditors rarely have autonomy to audit accounts,
- 2) they routinely operate with fear or favor, dependent of other offices of government, or
- 3) the source of funding is usually inconsistent from year to year.

3.3.1.8 Law: there are indep. bodies to investigate cases of pubsec. corruption (aii_q11)

Long tag: qog_std_ts_aii_q11

Original tag: aii_q11

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 11. In law, there is an independent body/bodies mandated to receive and investigate cases of alleged public sector corruption.

A 100 score is earned where all of the following conditions are met:

- 1) a law mandates a specific body to receive and investigate citizens' allegations of public sector corruption, and
- 2) a law establishes that the body is independent from the Executive and Legislative branches.

A 0 score is earned where no such law exists, or a law exists but it doesn't meet the two conditions described in 100.

3.3.1.9 Practice: corruption allegations are investigated by independent body (aii_q12)

Long tag: qog_std_ts_aii_q12

Original tag: aii_q12

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 12. In practice, allegations of corruption against senior level politicians and/or civil servants of any level are investigated by an independent body.

A 100 score is earned where all the following conditions are met:

- 1) allegations against senior-level politicians and/or civil servants of any level are investigated, and
- 2) the members of the body mandated to investigate the allegations work without fear or favor from other offices.

A 50 score is earned where any of the following conditions apply:

- 1) not all allegations against senior-level politicians and/or civil servants of any level are investigated, or
- 2) the members of the body mandated to investigate the allegations are occasionally subjected to positive/negative incentives to rule in favor/against a senior-level politician and/or civil servant.

A 0 score is earned where at least one of the following conditions apply:

- 1) allegations against senior level politicians and/or civil servants of any level are rarely or never investigated, or
- 2) the members of the body mandated to investigate the allegations routinely receive positive/negative incentives to rule in favor/against a senior level politician and/or civil servant.

3.3.1.10 Practice: bodies investigating pubsector corruption allegations are effective (aii_q13)

Long tag: qog_std_ts_aii_q13

Original tag: aii_q13

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 13. In practice, the body/bodies that investigate/s allegations of public sector corruption is/are effective.

A 100 score is earned where all the following conditions are met:

- 1) the body has a functioning system in place to receive citizens' allegations of public sector corruption,
- 2) it investigates most of the allegations within three months of being reported, and
- 3) it exercises its own initiative to start investigations when/if needed.

A 50 score is earned where any of the following conditions apply:

- 1) the system to receive citizens' allegations may not work for several days at a time,
- 2) not all cases reported are investigated or investigations take more than three months to start, or
- 3) the body rarely or never starts investigations out of its own initiative.

A 0 score is earned where at least one of the following conditions apply:

- 1) there's no system to receive citizens' allegations, or
- 2) cases reported are rarely or never investigated.

3.3.1.11 Law: head of state and gov. can be investigated and prosecuted while in office (aai_q15)

Long tag: qog_std_ts_aai_q15

Original tag: aai_q15

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 162, Percent: 1.06

Non-missing observations in chosen unit: Sum: 156, Percent: 0.52

Lost observations in chosen unit: Sum: 6 Percent: 3.7

Description:

Sub-score (0-100). Question no. 15. In law, the head of state and government can be investigated and prosecuted while in office if evidence suggests they committed a crime.

A 100 score is earned where the law doesn't protect the heads of state and government from being investigated and prosecuted while in office if evidence suggests they committed a crime.

A 0 score is earned where a law protects/gives immunity to the heads of state and government from being investigated and prosecuted while in office if evidence suggests they committed a crime.

3.3.1.12 Practice: head of state and gov. can be investigated and prosecuted while in office (aai_q16)

Long tag: qog_std_ts_aai_q16

Original tag: aai_q16

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 162, Percent: 1.06

Non-missing observations in chosen unit: Sum: 156, Percent: 0.52

Lost observations in chosen unit: Sum: 6 Percent: 3.7

Description:

Sub-score (0-100). Question no. 16. In practice, heads of state and government are investigated and prosecuted while in office if evidence suggest they committed a crime.

A 100 score is earned where all the following conditions are met:

- 1) criminal allegations against heads of state and government are investigated while they are in office,
- 2) heads of state and government are prosecuted when investigations find evidence of possible wrongdoing, and
- 3) legal punishment is imposed if/when they are found guilty.

A 50 score is earned where any of the following conditions apply:

- 1) not all allegations are investigated while they are in office,
- 2) not all investigations that find evidence of criminal activity result in prosecution, or
- 3) not all guilty verdicts result in legal punishment.

A 0 score is earned where at least one of the following conditions apply:

- 1) allegations against heads of state and government are rarely investigated while they are in office,
- 2) criminal evidence rarely results in prosecution, or
- 3) guilty verdicts rarely result in legal punishment.

A 0 also applies if the heads of state and government have immunity, therefore making it impossible in practice to investigate, prosecute or punish them.

3.3.1.13 Law: there are mechanisms for citizens to report police force misconduct/abuse (aii_q17)

Long tag: qog_std_ts_aii_q17

Original tag: aii_q17

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 17. In law, there is a mechanism for citizens to report police misconduct or abuse of force.

A 100 score is earned where a law establishes the existence of an oversight body/entity specifically mandated to investigate police misconduct or abuse of force.

A 0 score is earned when no such law exists.

3.3.1.14 Practice: mechanisms for citizens to report police misconduct/abuse are effect. (aii_q18)

Long tag: qog_std_ts_aii_q18

Original tag: aii_q18

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 18. In practice, the mechanism for citizens to report police misconduct or abuse of force is effective.

A 100 score is earned where all the following conditions are met:

- 1) the body has a functioning system in place to receive citizens' allegations of police misconduct or abuse of force,
- 2) it investigates most of the allegations within one week of being reported, and
- 3) it exercises its own initiative to start investigations when/if needed.

A 50 score is earned where any of the following conditions apply:

- 1) the system to receive citizens' allegations may not work for several days at a time,
- 2) not all cases reported are investigated or investigations take more than one week to start, or
- 3) none or only a minority of the investigations are self-started by the body.

A 0 score is earned where at least one of the following conditions are met:

- 1) there's no system to receive citizens' allegations, or
- 2) cases reported are rarely investigated.

3.3.1.15 Law: companies guilty of procurement violations can't participate in future bid (aii_q27)

Long tag: qog_std_ts_aii_q27

Original tag: aii_q27

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 27. In law, companies found guilty of violations of procurement regulations are prohibited from participating in future bids.

A 100 score is earned where the law forbids companies found guilty of violating the law (procurement, tax, labor, corruption, etc.) from participating in future bidding in the country, whether indefinitely or for a limited period of time.

A 0 score is earned where no such law exists.

3.3.1.16 Practice: companies guilty of violations cannot participate in future bids (aii_q28)

Long tag: qog_std_ts_aii_q28

Original tag: aii_q28

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Sub-score (0-100). Question no. 28. In practice, companies found guilty of violating procurement regulations are prohibited from participating in future bids

A 100 score is earned where all the following conditions are met:

- 1) companies found guilty of violating the law (procurement, tax, labor, corruption, etc.) are forbidden from participating in future bidding in the country, whether indefinitely or for a limited period of time, and

2) there is a registry of companies forbidden from bidding that citizens can access immediately or in less than two weeks upon request. A 100 is also earned if there is a registry in place that at the time of this research is empty because no company has violated the law.

A 50 score is earned where any of the following conditions apply:

- 1) companies found guilty of violating the law (procurement, tax, labor, corruption, etc.) are generally forbidden from participating in future bidding, but there is evidence that some exceptions exist, or
- 2) citizen access to the full list of companies forbidden from participating takes more than two weeks.

A 0 score is earned where at least one of the following conditions apply:

- 1) companies found guilty of violating the law (procurement, tax, labor, corruption, etc.) are rarely forbidden from participating in future bidding, or
- 2) there is no registry of companies forbidden from participating or it exists but it's not public.

3.3.1.17 Law: civil servants who report corruption cases are protected (aii_q36)

Long tag: qog_std_ts_aii_q36

Original tag: aii_q36

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 36. In law, civil servants who report cases of corruption are protected from recrimination or other negative consequences.

A 100 score is earned where all the following conditions are met:

- 1) there is a law specifically created to protect public sector whistle-blowers, and
- 2) the law forbids termination, transfer, harassment or other negative consequences against whistle-blowers. Note: General protections for civil servants do not grant a 100.

A 0 score is earned if no such law exists.

3.3.1.18 Rule of law sub-index (aii_rol)

Long tag: qog_std_ts_aii_rol

Original tag: aii_rol

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 540, Percent: 3.53

Non-missing observations in chosen unit: Sum: 520, Percent: 1.73

Lost observations in chosen unit: Sum: 20 Percent: 3.7

Description:

Rule of Law. This sub-index from 0 to 100 is composed of:

41. In law, citizens have a right to request public information from state bodies.
42. In practice, citizen requests for public information are effective.
43. In practice, citizens can access legislative processes and documents.
44. In law, senior officials of the three branches of government (including heads of state and government, ministers, members of Parliament, judges, etc.) are required to disclose records of their assets and disclosures are public.
45. In practice, the asset disclosure process for senior officials of the three branches of government (heads of state and government, ministers, members of Parliament, judges, etc.) is effective.
46. In law, members of the civil service are required to disclose records of their assets and the disclosures are public.
47. In practice, the asset disclosure process for members of the civil service is effective.
48. In law, political parties are required to regularly disclose public donations (funds sourced from the government).
49. In practice, political parties regularly disclose public donations (funds that are sourced from the government) and the disclosures are easily available to the public.
50. In law, political parties are required to regularly disclose private donations.
51. In practice, political parties regularly disclose private donations and the disclosures are easily available to the public.

52. In practice, media organizations (print, broadcast, online) disclose the identities of their owners to the public.

53. In practice, journalists and editors adhere to strict, professional practices in their reporting.

54. In law, it is legal to report accurate news even if it damages the reputation of a public figure.

55. In practice, there is no prior government restraint (pre-publication censoring) and the government doesn't promote the media's self-censorship.

56. In practice, there is no prior government restraint (pre-publication censoring) of citizen-created content online and the government doesn't promote the self-censorship of citizens online (in blogs, social media, etc.).

57. In practice, the government does not block (or require ICT firms to block) online content.

58. In practice, ministries and autonomous agencies have websites.

59. In practice, the public services regulatory agencies and the national ombudsman (when and if there is one) have websites.

3.3.1.19 Civil Rights (bti_cr)

Long tag: qog_std_ts_bti_cr

Original tag: bti_cr

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent are civil rights guaranteed and protected, and to what extent can citizens seek redress for violations of these rights? From 1 to 10.

1. Civil rights are not guaranteed, and are frequently violated. There are no mechanisms and institutions to protect citizens against violations of their rights.

4. Civil rights are guaranteed only within limited enclaves or are violated over protracted periods of time. Some mechanisms and institutions to prosecute, punish and redress violations of civil rights are established formally but do not function.

7. Civil rights are guaranteed but are partially or temporarily violated or are not protected in some parts of the country. Mechanisms and institutions to prosecute, punish and redress violations of civil rights are in place but often prove to be ineffective.

10. Civil rights are guaranteed by the constitution and respected by all state institutions. Infringements present an extreme exception. Citizens are effectively protected by mechanisms and institutions established to prosecute, punish and redress violations of their rights.

3.3.1.20 Freedom of Expression (bti_foe)

Long tag: qog_std_ts_bti_foe

Original tag: bti_foe

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent can citizens, organizations, and the mass media express opinions freely? From 1 to 10.

1. Freedom of expression is denied. Independent media do not exist or are prohibited.

4. Freedom of expression is often subject to interference or government restrictions. Distortion and manipulation shape matters of public debate.

7. Freedom of expression is occasionally subject to interference or government restrictions, but there are generally no incidents of blatant intrusions like outright state censorship or media shutdowns.

10. Freedom of expression is guaranteed against interference or government restrictions. Individuals, groups and the press can fully exercise these rights.

3.3.1.21 Independent Judiciary (bti_ij)

Long tag: qog_std_ts_bti_ij

Original tag: bti_ij

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent does an independent judiciary exist? From 1 to 10.

1. The judiciary is not independent and not institutionally differentiated.
4. The independence of the judiciary is heavily impaired by political authorities and high levels of corruption. It is to some extent institutionally differentiated, but severely restricted by functional deficits, insufficient territorial operability and scarce resources.
7. The judiciary is largely independent, even though occasionally its decisions are subordinated to political authorities or influenced by corruption. It is institutionally differentiated, but partially restricted by insufficient territorial or functional operability.
10. The judiciary is independent and free both from unconstitutional intervention by other institutions and from corruption. It is institutionally differentiated, and there are mechanisms for judicial review of legislative or executive acts.

3.3.1.22 Prosecution of Office Abuse (bti_poa)

Long tag: qog_std_ts_bti_poa

Original tag: bti_poa

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent are public officeholders who abuse their positions prosecuted or penalized?
From 1 to 10.

1. Office holders who break the law and engage in corruption can do so without fear of legal consequences or adverse publicity.
4. Office holders who break the law and engage in corruption are not prosecuted adequately under the law, but occasionally attract adverse publicity.
7. Officeholders who break the law and engage in corruption generally are prosecuted under established laws and often attract adverse publicity, but occasionally slip through political, legal or procedural loopholes.
10. Officeholders who break the law and engage in corruption are prosecuted rigorously under established laws and always attract adverse publicity.

3.3.1.23 Rule of Law (bti_rol)

Long tag: qog_std_ts_bti_rol

Original tag: bti_rol

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

Rule of Law: State powers check and balance one another and ensure civil rights. Including 'To what extent is there a working separation of powers (checks and balances)', 'To what extent does an independent judiciary exist?', 'To what extent are public officeholders who abuse their positions prosecuted or penalized?' and 'To what extent are civil rights guaranteed and protected, and to what extent can citizens seek redress for violations of these rights?'.

3.3.1.24 Equality Before the Law Mentioned in Constitution (ccp_equal)

Long tag: qog_std_ts_ccp_equal

Original tag: ccp_equal

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution refer to equality before the law, the equal rights of men, or non-discrimination?

1. Yes
2. No
96. Other

3.3.1.25 Human Rights Commission Present in Constitution (ccp_hr)

Long tag: qog_std_ts_ccp_hr

Original tag: ccp_hr

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution contain provisions for a human rights commission?

1. Yes

2. No

96. Other

3.3.1.26 Right to View Government Documents in Constitution (ccp_infoacc)

Long tag: qog_std_ts_ccp_infoacc

Original tag: ccp_infoacc

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10065, Percent: 65.82

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1225 Percent: 12.17

Description:

Does the constitution provide for an individual the right to view government files or documents under at least some conditions?

1. Yes

2. No

96. Other

3.3.1.27 Status of Slavery in Constitution (ccp_slave)

Long tag: qog_std_ts_ccp_slave

Original tag: ccp_slave

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution prohibit slavery, servitude, or forced labor?

1. Universally prohibited

2. Prohibited except in the case of war

3. Prohibited with other exception(s)

90. Left explicitly to non-constitutional law

96. Other

98. Not specified

3.3.1.28 Right to Strike in Constitution (ccp_strike)

Long tag: qog_std_ts_ccp_strike

Original tag: ccp_strike

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution provide for the right to strike?

1. Yes

2. Yes, but with limitations

3. No

96. Other

3.3.1.29 New Constitutional System (ccp_syst)

Long tag: qog_std_ts_ccp_syst

Original tag: ccp_syst

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 11656, Percent: 76.23

Non-missing observations in chosen unit: Sum: 10174, Percent: 33.94

Lost observations in chosen unit: Sum: 1482 Percent: 12.71

Description:

Identifies new constitutional systems.

3.3.1.30 Year in which the Constitutional System was Promulgated (ccp_systyear)

Long tag: qog_std_ts_ccp_systyear

Original tag: ccp_systyear

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10961, Percent: 71.68

Non-missing observations in chosen unit: Sum: 9660, Percent: 32.23

Lost observations in chosen unit: Sum: 1301 Percent: 11.87

Description:

Year in which the constitutional system was promulgated.

3.3.1.31 Prevalence of Enforced Disappearance (ciri_disap)

Long tag: qog_std_ts_ciri_disap

Original tag: ciri_disap

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6885, Percent: 45.03

Non-missing observations in chosen unit: Sum: 6210, Percent: 20.72

Lost observations in chosen unit: Sum: 675 Percent: 9.8

Description:

Disappearances are cases in which 1) people have disappeared, 2) agents of the state are likely responsible, and 3) political motivation is likely. In most instances, disappearances occur because of a victim's political involvement or knowledge of information sensitive to authorities. Often, victims are referred to by governments as "terrorists," and labeled a threat to national security. Knowledge of the whereabouts of the disappeared is, by definition, not public knowledge. However, it is typically known by whom they were taken and under what circumstances. Cases where people disappear for a period of time and then later reappear are also to be counted, so long as the initial disappearance occurs in the year you are scoring. In many instances, victims are taken under false pretense, such as having been taken away for questioning due to suspicion of some political action that is in opposition to the government. There are some cases of persons that are held under the circumstance of "clandestine detention." These are prisoners that are known to be in custody but their whereabouts are not known. Since the whereabouts of clandestine detainees are not known, they should be counted among the disappeared.

Scoring Scheme:

Disappearances:

(0) Have occurred frequently

(1) Have occurred occasionally

(2) Have not occurred / Unreported

3.3.1.32 Freedom of Domestic Movement (ciri_dommov)

Long tag: qog_std_ts_ciri_dommov

Original tag: ciri_dommov

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 7388, Percent: 48.32

Non-missing observations in chosen unit: Sum: 6431, Percent: 21.46

Lost observations in chosen unit: Sum: 957 Percent: 12.95

Description:

The freedom to travel within one's country is a right. There are governments that do not allow citizens to travel within their own country of birth or that restrict the movement of certain groups for reasons based on political views or activities, religious beliefs, ethnicity, marital status, and gender. For example, some countries strictly curtail the freedom of movement of oppositional political leaders, ethnic minorities, religious leaders, human rights activists or monitors, and journalists. This may take many forms, including government-imposed internal exile and/or intentional bureaucratic/administrative delays to freedom of movement after a prison term has ended. Some countries strictly monitor all or nearly all citizens' internal movements, and citizens are required to notify local officials of their whereabouts or must get their permission to move. In some countries, citizens must carry national identity cards, travel or work permits, or internal passports for any movement outside their immediate village, neighborhood, or province. Some countries use issuance of these cards to restrict movement within the country. Some governments use forced internal resettlement to relocate large numbers of citizens without their consent. Some governments also impose curfew laws and military checkpoints on domestic travel during times of military or civil conflict.

Scoring Scheme:

Domestic travel is:

(0) Severely Restricted

(1) Somewhat Restricted

(2) Unrestricted

3.3.1.33 Independence of the Judiciary (ciri_injud)

Long tag: qog_std_ts_ciri_injud

Original tag: ciri_injud

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 7357, Percent: 48.11

Non-missing observations in chosen unit: Sum: 6405, Percent: 21.37

Lost observations in chosen unit: Sum: 952 Percent: 12.94

Description:

Independence of the judiciary indicates the extent to which the judiciary is independent of control from other sources, such as another branch of the government or the military. Important questions to consider include:

- Are judges safe from removal by other government officials?

- Can actions of other government branches be challenged in the courts?
- Are court hearings public?
- Are judicial officials generally free from corruption and intimidation?
- Are case outcomes protected from governmental interference?

Scoring Scheme:

As an institution, the judiciary is:

(0) Not Independent

(1) Partially Independent

(2) Generally Independent

3.3.1.34 Extrajudicial Killing (ciri_kill)

Long tag: qog_std_ts_ciri_kill

Original tag: ciri_kill

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6882, Percent: 45.01

Non-missing observations in chosen unit: Sum: 6207, Percent: 20.71

Lost observations in chosen unit: Sum: 675 Percent: 9.81

Description:

Extrajudicial killings are killings by government officials without due process of law. They include

murders by private groups if instigated by a government. These killings may result from the deliberate, illegal, and excessive use of lethal force by the police, security forces, or other agents of the state whether against criminal suspects, detainees, prisoners, or others. Deaths resulting from torture

should be counted, as these deaths occurred while the prisoners were in the custody of the government

or its agents. Deaths from military hazing also count.

In most cases, the USSD reports indicate cases of political killings by explicitly referring to these killings as “political.” A victim of a politically motivated killing is someone who was killed by a government or its agents as a result of his or her involvement in political activities or for supporting (implicitly or explicitly) the political actions of opposition movements against the existing government.

While they may be the result of different motives, both extrajudicial killings and political killings are

to be treated identically for the purposes of scoring.

NOTE: Beginning in 2001, the USSD replaced “Political and Other Extrajudicial Killings” with

“Arbitrary or Unlawful Deprivation of Life” as the title of this section in their Human Rights Reports

(released March 2002).

Scoring Scheme:

Political or Extrajudicial Killings are:

(0) Practiced frequently

(1) Practiced occasionally

(2) Have not occurred / unreported

(Original variable name: Political and other extrajudicial killings/arbitrary or unlawful deprivation of life)

3.3.1.35 Physical Integrity Rights (ciri_physint)

Long tag: qog_std_ts_ciri_physint

Original tag: ciri_physint

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6864, Percent: 44.89

Non-missing observations in chosen unit: Sum: 6189, Percent: 20.65

Lost observations in chosen unit: Sum: 675 Percent: 9.83

Description:

Physical Integrity Rights is an additive index of the following variables: Disappearance + Extrajudicial Killing + Political Imprisonment + Torture.

The index ranges from 0-8. Higher values indicate greater levels of human rights respect

3.3.1.36 Political Imprisonment (ciri_polpris)

Long tag: qog_std_ts_ciri_polpris

Original tag: ciri_polpris

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6890, Percent: 45.06

Non-missing observations in chosen unit: Sum: 6215, Percent: 20.74

Lost observations in chosen unit: Sum: 675 Percent: 9.8

Description:

Political imprisonment refers to the incarceration of people by government officials because of their

speech; their non-violent opposition to government policies or leaders; their religious beliefs; their non-violent religious practices including proselytizing; or their membership in a group, including an ethnic or racial group. Sometimes reports refer to “prisoners of conscience”; someone who was imprisoned because of his or her beliefs. Prisoners of conscience include those who are imprisoned due to their political and/or religious beliefs or practices. Reports sometimes make distinctions between political prisoners and prisoners of conscience, but for our purposes they are the same. Be aware that in many instances political prisoners are classified as terrorists and threats to national security by governments, which routinely apply the label ‘terrorist’ to all opposition movements.

Scoring Scheme:

Are people imprisoned because of their political, religious, or other beliefs?

(0) Yes, and many

(1) Yes, but few

(2) None / None Reported

3.3.1.37 Prevalence of Torture by Government Authorities (ciri_tort)

Long tag: qog_std_ts_ciri_tort

Original tag: ciri_tort

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6888, Percent: 45.05

Non-missing observations in chosen unit: Sum: 6213, Percent: 20.73

Lost observations in chosen unit: Sum: 675 Percent: 9.8

Description:

Torture refers to the purposeful inflicting of extreme pain—whether mental or physical—by government

officials, or by private individuals at the instigation of government officials. This includes the use of physical and other force by police and prison guards – including rape and beatings – as well as deaths

in custody due to tangible negligence by government officials. Torture can be anything from simple beatings to other practices such as waterboarding, rape, or administering shock or electrocution as a

means of getting information or a forced confession. Torture also takes into account intentional mental abuse of those in custody. Military hazing also counts as torture.

Scoring Scheme:

Torture is:

(0) Practiced frequently

(1) Practiced occasionally

(2) Not practiced / Unreported

3.3.1.38 Trust in Legal System (ess_trlegal)

Long tag: qog_std_ts_ess_trlegal

Original tag: ess_trlegal

Dataset citation: Teorell et al. (2025)

Variable citation: NSD - Norwegian Centre for Research Data (2020), ESS Round 1: European Social Survey Round 1 Data (2002), ESS Round 2: European Social Survey Round 2 Data (2004), ESS Round 3: European Social Survey Round 3 Data (2006), ESS Round 4: European Social Survey Round 4 Data (2008), ESS Round 5: European Social Survey Round 5 Data (2010), ESS Round 6: European Social Survey Round 6 Data (2012), ESS Round 7: European Social Survey Round 7 Data (2014), ESS Round 8: European Social Survey Round 8 Data (2016), ESS Round 9: European Social Survey Round 9 Data (2018), NSD - Norwegian Centre for Research Data (2020), ESS Round 11: European Social Survey European Research Infrastructure (ESS ERIC) (2024)

Merge scores:

Non-missing observations in original unit: Sum: 258, Percent: 1.69

Non-missing observations in chosen unit: Sum: 258, Percent: 0.86

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

Please tell me on a score of 0-10 how much you personally trust each of the institutions I read out. 0 means you do not trust an institution at all, and 10 means you have complete trust. The Legal System.

3.3.1.39 Trust in Police (ess_trpolice)

Long tag: qog_std_ts_ess_trpolice

Original tag: ess_trpolice

Dataset citation: Teorell et al. (2025)

Variable citation: NSD - Norwegian Centre for Research Data (2020), ESS Round 1: European Social Survey Round 1 Data (2002), ESS Round 2: European Social Survey Round 2 Data (2004), ESS Round 3: European Social Survey Round 3 Data (2006), ESS Round 4: European Social Survey Round 4 Data (2008), ESS Round 5: European Social Survey Round 5 Data (2010), ESS Round 6: European Social Survey Round 6 Data (2012), ESS Round 7: European Social Survey Round 7 Data (2014), ESS Round 8: European Social Survey Round 8 Data (2016), ESS Round 9: European Social Survey Round 9 Data (2018), NSD - Norwegian Centre for Research Data (2020), ESS Round 11: European Social Survey European Research Infrastructure (ESS ERIC) (2024)

Merge scores:

Non-missing observations in original unit: Sum: 258, Percent: 1.69

Non-missing observations in chosen unit: Sum: 258, Percent: 0.86

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

Please tell me on a score of 0-10 how much you personally trust each of the institutions I read out. 0 means you do not trust an institution at all, and 10 means you have complete trust. The Police.

3.3.1.40 Associational and Organizational Rights (fh_aor)

Long tag: qog_std_ts_fh_aor

Original tag: fh_aor

Dataset citation: Teorell et al. (2025)

Variable citation: Freedom House (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3485, Percent: 22.79

Non-missing observations in chosen unit: Sum: 3045, Percent: 10.16

Lost observations in chosen unit: Sum: 440 Percent: 12.63

Description:

Associational and Organizational Rights - The variable evaluates the freedom of assembly, demonstrations and open public discussion; the freedom for nongovernmental organizations; and the freedom for trade unions, peasant organizations and other professional and private organizations. Countries are graded between 0 (worst) and 12 (best).

3.3.1.41 Civil Liberties (fh_cl)

Long tag: qog_std_ts_fh_cl

Original tag: fh_cl

Dataset citation: Teorell et al. (2025)

Variable citation: Freedom House (2024)

Merge scores:

Non-missing observations in original unit: Sum: 8779, Percent: 57.41

Non-missing observations in chosen unit: Sum: 7676, Percent: 25.61

Lost observations in chosen unit: Sum: 1103 Percent: 12.56

Description:

Civil Liberties Rating - Civil liberties allow for the freedoms of expression and belief, associational and organizational rights, rule of law, and personal autonomy without interference from the state. The more specific list of rights considered vary over the years. Countries are graded between 1 (most free) and 7 (least free).

3.3.1.42 Freedom of Expression and Belief (fh_feb)

Long tag: qog_std_ts_fh_feb

Original tag: fh_feb

Dataset citation: Teorell et al. (2025)

Variable citation: Freedom House (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3485, Percent: 22.79

Non-missing observations in chosen unit: Sum: 3045, Percent: 10.16

Lost observations in chosen unit: Sum: 440 Percent: 12.63

Description:

Freedom of Expression and Belief - The variable measures the freedom and independence of the media and other cultural expressions, the freedom of religious groups to practice their faith and express themselves, the academic freedom and freedom from extensive political indoctrination in the educational system, and the ability of the people to engage in private (political) discussions without fear of harassment or arrest by the authorities. Countries are graded between 0 (worst) and 16 (best).

3.3.1.43 Personal Autonomy and Individual Rights (fh_pair)

Long tag: qog_std_ts_fh_pair

Original tag: fh_pair

Dataset citation: Teorell et al. (2025)

Variable citation: Freedom House (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3485, Percent: 22.79

Non-missing observations in chosen unit: Sum: 3045, Percent: 10.16

Lost observations in chosen unit: Sum: 440 Percent: 12.63

Description:

Personal Autonomy and Individual Rights - The variable evaluates the extent of state control over travel, choice of residence, employment or institutions of higher education; the right of citizens to own property and establish private businesses; the private business' freedom from unduly influence by government officials, security forces, political parties or organized crime; gender equality, freedom of choice of marriage partners and size of family; equality of opportunity and absence of economic exploitation. Countries are graded between 0 (worst) and 16 (best).

3.3.1.44 Rule of Law (fh_rol)

Long tag: qog_std_ts_fh_rol

Original tag: fh_rol

Dataset citation: Teorell et al. (2025)

Variable citation: Freedom House (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3485, Percent: 22.79

Non-missing observations in chosen unit: Sum: 3045, Percent: 10.16

Lost observations in chosen unit: Sum: 440 Percent: 12.63

Description:

Rule of Law - The variable measures the independence of the judiciary; the extent to which rule of law prevails in civil and criminal matters; the existence of direct civil control over the police; the protection from political terror, unjustified imprisonment, exile and torture; absence of war and insurgencies; and the extent to which laws, policies and practices guarantee equal treatment of various segments of the population. Countries are graded between 0 (worst) and 16 (best).

3.3.1.45 Legal Structure and Security of Property Rights (panel data) (fi_legprop_pd)

Long tag: qog_std_ts_fi_legprop_pd

Original tag: fi_legprop_pd

Dataset citation: Teorell et al. (2025)

Variable citation: Gwartney et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3886, Percent: 25.41

Non-missing observations in chosen unit: Sum: 3736, Percent: 12.46

Lost observations in chosen unit: Sum: 150 Percent: 3.86

Description:

The index ranges from 0-10 where 0 corresponds to “no judicial independence”, “no trusted legal framework exists”, “no protection of intellectual property”, “military interference in rule of law”, and “no integrity of the legal system” and 10 corresponds to “high judicial independence”, “trusted legal framework exists”, “protection of intellectual property”, “no military interference in rule of law”, and “integrity of the legal system”. The index consists of the following indicators: Judicial independence: The judiciary is independent and not subject to interference by the government or parties in dispute, Impartial courts: A trusted legal framework exists for private businesses to challenge the legality of government actions or regulations, Protection of intellectual property, Military interference in rule of law and the political process, Integrity of the legal system. Panel-data adjusted.

3.3.1.46 Independent Judiciary (h_j)

Long tag: qog_std_ts_h_j

Original tag: h_j

Dataset citation: Teorell et al. (2025)

Variable citation:

Merge scores:

Non-missing observations in original unit: Sum: 8387, Percent: 54.85

Non-missing observations in chosen unit: Sum: 7823, Percent: 26.1

Lost observations in chosen unit: Sum: 564 Percent: 6.72

Description:

Dummy variable coded 1 if there is an independent judiciary (based on information from Polity's Executive Constraints, p_xconst) and - where available - on ICRG's index of Law \amp; Order.

3.3.1.47 Appointments/Elections to Constitutional Court (iaep_aecc)

Long tag: qog_std_ts_iaep_aecc

Original tag: iaep_aecc

Dataset citation: Teorell et al. (2025)

Variable citation: Wig et al. (2015)

Merge scores:

Non-missing observations in original unit: Sum: 4814, Percent: 31.48

Non-missing observations in chosen unit: Sum: 4526, Percent: 15.1

Lost observations in chosen unit: Sum: 288 Percent: 5.98

Description:

Are members of this court (see iaep_cc) appointed or elected? "Elected" here refers to a popular election. Elections by legislative bodies are considered appointments.

1. Appointed

2. Elected

Source: IAEP (Wig et al., 2015)

3.3.1.48 Appointment for Life to Constitutional Court (iaep_alcc)

Long tag: qog_std_ts_iaep_alcc

Original tag: iaep_alcc

Dataset citation: Teorell et al. (2025)

Variable citation: Wig et al. (2015)

Merge scores:

3.3.1.62 Rule of Law, Estimate (wbgi_rle)

Long tag: qog_std_ts_wbgi_rle

Original tag: wbgi_rle

Dataset citation: Teorell et al. (2025)

Variable citation: Kaufmann & Kraay (n.d.)

Merge scores:

Non-missing observations in original unit: Sum: 4625, Percent: 30.25

Non-missing observations in chosen unit: Sum: 4038, Percent: 13.47

Lost observations in chosen unit: Sum: 587 Percent: 12.69

Description:

Rule of Law - Estimate: 'Rule of Law' includes several indicators which measure the extent to which agents have confidence in and abide by the rules of society. These include perceptions of the incidence of crime, the effectiveness and predictability of the judiciary, and the enforceability of contracts. Together, these indicators measure the success of a society in developing an environment in which fair and predictable rules form the basis for economic and social interactions and the extent to which property rights are protected.

3.3.1.63 Rule of Law, Standard Error (wbgi_rls)

Long tag: qog_std_ts_wbgi_rls

Original tag: wbgi_rls

Dataset citation: Teorell et al. (2025)

Variable citation: Kaufmann & Kraay (n.d.)

Merge scores:

Non-missing observations in original unit: Sum: 4625, Percent: 30.25

Non-missing observations in chosen unit: Sum: 4038, Percent: 13.47

Lost observations in chosen unit: Sum: 587 Percent: 12.69

Description:

Rule of Law - Standard Errors.

3.3.1.64 Intentional homicides (per 100,000 people) (wdi_homicides)

Long tag: qog_std_ts_wdi_homicides

Original tag: wdi_homicides

Dataset citation: Teorell et al. (2025)

Variable citation: World Bank (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3563, Percent: 23.3

Non-missing observations in chosen unit: Sum: 3232, Percent: 10.78

Lost observations in chosen unit: Sum: 331 Percent: 9.29

Description:

Intentional homicides are estimates of unlawful homicides purposely inflicted as a result of domestic disputes, interpersonal violence, violent conflicts over land resources, intergang violence over turf or control, and predatory violence and killing by armed groups. Intentional homicide does not include all intentional killing; the difference is usually in the organization of the killing. Individuals or small groups usually commit homicide, whereas killing in armed conflict is usually committed by fairly cohesive groups of up to several hundred members and is thus usually excluded.

3.3.1.65 Intentional homicides, female (per 100,000 female) (wdi_homicidesf)

Long tag: qog_std_ts_wdi_homicidesf

Original tag: wdi_homicidesf

Variable citation: World Bank (2024)

Merge scores:

Non-missing observations in original unit: Sum: 2331, Percent: 15.24

Non-missing observations in chosen unit: Sum: 2137, Percent: 7.13

Lost observations in chosen unit: Sum: 194 Percent: 8.32

Description:

Intentional homicides, female (per 100,000 female). Intentional homicides, female are estimates of unlawful female homicides purposely inflicted as a result of domestic disputes, interpersonal violence, violent conflicts over land resources, intergang violence over turf or control, and predatory violence and killing by armed groups. Intentional homicide does not include all intentional killing; the difference is usually in the organization of the killing. Individuals or small groups usually commit homicide, whereas killing in armed conflict is usually committed by fairly cohesive groups of up to several hundred members and is thus usually excluded.

3.3.1.66 Intentional homicides, male (per 100,000 male) (wdi_homicidesm)

Long tag: qog_std_ts_wdi_homicidesm

Original tag: wdi_homicidesm

Dataset citation: Teorell et al. (2025)

Variable citation: World Bank (2024)

Merge scores:

Non-missing observations in original unit: Sum: 2330, Percent: 15.24

Non-missing observations in chosen unit: Sum: 2134, Percent: 7.12

Lost observations in chosen unit: Sum: 196 Percent: 8.41

Description:

Intentional homicides, male (per 100,000 male). Intentional homicides, male are estimates of unlawful male homicides purposely inflicted as a result of domestic disputes, interpersonal violence, violent conflicts over land resources, intergang violence over turf or control, and predatory violence and killing by armed groups. Intentional homicide does not include all intentional killing; the difference is usually in the organization of the killing. Individuals or small groups usually commit homicide, whereas killing in armed conflict is usually committed by fairly cohesive groups of up to several hundred members and is thus usually excluded.

3.3.1.67 CPIA property rights and rule-based governance rating (wdi_prrbgr)

Long tag: qog_std_ts_wdi_prrbgr

Original tag: wdi_prrbgr

Dataset citation: Teorell et al. (2025)

Variable citation: World Bank (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1348, Percent: 8.82

Non-missing observations in chosen unit: Sum: 1144, Percent: 3.82

Lost observations in chosen unit: Sum: 204 Percent: 15.13

Description:

Property rights and rule-based governance assess the extent to which private economic activity is facilitated by an effective legal system and rule-based governance structure in which property and contract rights are reliably respected and enforced (1=low to 6=high).

3.3.1.68 Homicide Rate, Female (who_homf)

Long tag: qog_std_ts_who_homf

Original tag: who_homf

Dataset citation: Teorell et al. (2025)

Variable citation: World Health Organization (2023)

Merge scores:

Non-missing observations in original unit: Sum: 3635, Percent: 23.77

Non-missing observations in original unit: Sum: 3635, Percent: 23.77

Non-missing observations in chosen unit: Sum: 3363, Percent: 11.22

Lost observations in chosen unit: Sum: 272 Percent: 7.48

Description:

Homicide Rate, Estimates of rates of homicides per 100 000 population, Total

3.3.1.71 Absence of Corruption (wjp_abs_cor)

Long tag: qog_std_ts_wjp_abs_cor

Original tag: wjp_abs_cor

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Absence of Corruption, Factor 2 of the WJP Rule of Law Index, measures the absence of corruption in government. The factor considers three forms of corruption: bribery, improper influence by public or private interests, and misappropriation of public funds or other resources. These three forms of corruption are examined with respect to government officers in the executive branch, the judiciary, the military, police, and the legislature.

3.3.1.72 ADRs are Accessible, Impartial, and Effective (wjp_adr)

Long tag: qog_std_ts_wjp_adr

Original tag: wjp_adr

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Alternative dispute resolution mechanisms are accessible, impartial, and effective. The variable measures if the ADRs are affordable, efficient, enforceable, and free of corruption.

3.3.1.73 Civil Justice (wjp_civ_just)

Long tag: qog_std_ts_wjp_civ_just

Original tag: wjp_civ_just

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Civil Justice, Factor 7 of the WJP Rule of Law Index, measures whether ordinary people can resolve their grievances peacefully and effectively through the civil justice system. It measures whether civil justice systems are accessible and affordable as well as free of discrimination, corruption, and improper influence by public officials. It examines whether court proceedings are conducted without unreasonable delays and whether decisions are enforced effectively. It also measures the accessibility, impartiality, and effectiveness of alternative dispute resolution mechanisms.

3.3.1.74 Civil Justice is Free of Corruption (wjp_cj_cor)

Long tag: qog_std_ts_wjp_cj_cor

Original tag: wjp_cj_cor

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Civil justice is free of corruption measures whether the civil justice system is free of bribery and improper influence by private interests.

3.3.1.75 Civil Justice is not Subject to Unreasonable Delays (wjp_cj_delay)

Long tag: qog_std_ts_wjp_cj_delay

Original tag: wjp_cj_delay

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Civil justice is not subject to unreasonable delays measures whether civil justice proceedings are conducted and judgments are produced in a timely manner without unreasonable delay.

3.3.1.76 Civil Justice is Free of Discrimination (wjp_cj_discr)

Long tag: qog_std_ts_wjp_cj_discr

Original tag: wjp_cj_discr

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1184, Percent: 7.74

Non-missing observations in chosen unit: Sum: 1124, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.07

Description:

Civil justice is free of discrimination measures whether the civil justice system discriminates in practice based on socio-economic status, gender, ethnicity, religion, national origin, sexual orientation, or gender identity.

3.3.1.77 Civil Justice is Effectively Enforced (wjp_cj_ef_enf)

Long tag: qog_std_ts_wjp_cj_ef_enf

Original tag: wjp_cj_ef_enf

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Civil justice is effectively enforced measures the effectiveness and timeliness of the enforcement of civil justice decisions and judgments in practice.

3.3.1.78 Civil Justice is Free of Improper Government Influence (wjp_cj_fr_govin)

Long tag: qog_std_ts_wjp_cj_fr_govin

Original tag: wjp_cj_fr_govin

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Civil justice is free of improper government influence measures whether the civil justice system is free of improper government or political influence.

3.3.1.79 Criminal Justice (wjp_crim_jus)

Long tag: qog_std_ts_wjp_crim_jus

Original tag: wjp_crim_jus

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Criminal Justice, Factor 8 of the WJP Rule of Law Index, evaluates a country's criminal justice system. An effective criminal justice system is a key aspect of the rule of law, as it constitutes the conventional mechanism to redress grievances and bring action against individuals for

offenses against society. An assessment of the delivery of criminal justice should take into consideration the entire system, including the police, lawyers, prosecutors, judges, and prison officers.

3.3.1.80 Criminal System is Free of Corruption (wjp_crsys_cor)

Long tag: qog_std_ts_wjp_crsys_cor

Original tag: wjp_crsys_cor

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1184, Percent: 7.74

Non-missing observations in chosen unit: Sum: 1124, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.07

Description:

This variable measures whether the police, prosecutors, and judges are free of bribery and improper influence from criminal organizations.

3.3.1.81 Criminal System is Impartial (wjp_crsys_discr)

Long tag: qog_std_ts_wjp_crsys_discr

Original tag: wjp_crsys_discr

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

This variable measures whether the police and criminal judges are impartial and whether they discriminate in practice based on socio-economic status, gender, ethnicity, religion, national origin, sexual orientation, or gender identity.

3.3.1.82 Criminal System is Free of Improper Government Influence (wjp_crsys_govinfl)

Long tag: qog_std_ts_wjp_crsys_govinfl

Original tag: wjp_crsys_govinfl

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Criminal system is free of improper government influence measures whether the criminal justice system is independent from government or political influence.

3.3.1.83 Fundamental Rights (wjp_fund_right)

Long tag: qog_std_ts_wjp_fund_right

Original tag: wjp_fund_right

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Fundamental Rights, Factor 4 of the WJP Rule of Law Index, recognizes that a system of positive law that fails to respect core human rights established under international law is at best “rule by law,” and does not deserve to be called a rule of law system. Since there are many other indices that address human rights, and because it would be impossible for the Index to assess adherence to the full range of rights, this factor focuses on a relatively modest menu of rights that are firmly established under the United Nations Universal Declaration of Human Rights and are most closely related to rule of law concerns.

3.3.1.84 Government Officials Sanctioned for Misconduct (wjp_gov_of_mis)

Long tag: qog_std_ts_wjp_gov_of_mis

Original tag: wjp_gov_of_mis

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

The variable measures whether government officials in the executive, legislature, judiciary, and police are investigated, prosecuted, and punished for official misconduct and other violations.

3.3.1.85 Constraints on Government Powers (wjp_gov_pow)

Long tag: qog_std_ts_wjp_gov_pow

Original tag: wjp_gov_pow

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Constraints on Government Powers, Factor 1 of the WJP Rule of Law Index, measures the extent to which those who govern are bound by law. It comprises the means, both constitutional and institutional, by which the powers of the government and its officials and agents are limited and held accountable under the law. It also includes non-governmental checks on the government’s power, such as a free and independent press.

3.3.1.86 Government Powers Limited by Auditing and Review (wjp_gov_pow_aud)

Long tag: qog_std_ts_wjp_gov_pow_aud

Original tag: wjp_gov_pow_aud

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Government powers limited by auditing and review measures whether comptrollers or auditors, as well as national human rights ombudsman agencies, have sufficient independence and the ability to exercise effective checks on and oversight of the government.

3.3.1.87 Government Powers Limited by the Judiciary (wjp_gov_pow_jud)

Long tag: qog_std_ts_wjp_gov_pow_jud

Original tag: wjp_gov_pow_jud

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Government powers limited by the judiciary measures whether the judiciary has the independence and the ability in practice to exercise effective checks on the government.

3.3.1.88 Judicial Branch do not use Public Office for Private Gain (wjp_jud_br)

Long tag: qog_std_ts_wjp_jud_br

Original tag: wjp_jud_br

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Government officials in the judicial branch do not use public office for private gain measures whether judges and judicial officials refrain from soliciting and accepting bribes to perform duties or expedite processes, and whether the judiciary and judicial rulings are free of improper influence by the government, private interests, and criminal organizations.

3.3.1.89 Open Government (wjp_op_gov)

Long tag: qog_std_ts_wjp_op_gov

Original tag: wjp_op_gov

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Open Government, Factor 3 of the WJP Rule of Law Index, measures the openness of government defined by the extent to which a government shares information, empowers people with tools to hold the government accountable, and fosters citizen participation in public policy deliberations. This factor measures whether basic laws and information on legal rights are publicized and evaluates the quality of information published by the government.

3.3.1.90 Order and Security (wjp_ord_secur)

Long tag: qog_std_ts_wjp_ord_secur

Original tag: wjp_ord_secur

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Order and Security, Factor 5 of the WJP Rule of Law Index, measures how well a society ensures the security of persons and property. Security is one of the defining aspects of any rule of law society and is a fundamental function of the state. It is also a precondition for the realization of the rights and freedoms that the rule of law seeks to advance.

3.3.1.91 WJP Rule of Law Index: Overall Score (wjp_overall)

Long tag: qog_std_ts_wjp_overall

Original tag: wjp_overall

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

The WJP Rule of Law Index calculates scores and rankings for eight factors and 44 sub-factors. The Index team constructed the final scores using a five-step process. They codified the questionnaire items as numeric values; produced raw country scores by aggregating the responses from several individuals (experts and/or the general public); normalized the raw scores; aggregated the normalized scores into sub-factors and factors using simple averages; and produced the normalized scores, which are rounded to two decimal points, and the

final rankings.

3.3.1.92 Police and the Military do not use Public Office for Private Gain (wjp_pol_mil)

Long tag: qog_std_ts_wjp_pol_mil

Original tag: wjp_pol_mil

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1184, Percent: 7.74

Non-missing observations in chosen unit: Sum: 1124, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.07

Description:

Government officials in the police and the military do not use public office for private gain measures whether police officers and criminal investigators refrain from soliciting and accepting bribes to perform basic police services or to investigate crimes, and whether government officials in the police and the military are free of improper influence by private interests or criminal organizations.

3.3.1.93 Access and Afford Civil Justice (wjp_ppl_civ_jus)

Long tag: qog_std_ts_wjp_ppl_civ_jus

Original tag: wjp_ppl_civ_jus

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

People can access and afford civil justice measures the accessibility and affordability of civil courts, including whether people are aware of available remedies; can access and afford legal advice and representation; and can access the court system without incurring unreasonable fees, encountering unreasonable procedural hurdles, or experiencing physical or linguistic barriers.

3.3.1.94 Effective Regulatory Enforcement (wjp_regul_enforc)

Long tag: qog_std_ts_wjp_regul_enforc

Original tag: wjp_regul_enforc

Dataset citation: Teorell et al. (2025)

Variable citation: World Justice Project (2023)

Merge scores:

Non-missing observations in original unit: Sum: 1185, Percent: 7.75

Non-missing observations in chosen unit: Sum: 1125, Percent: 3.75

Lost observations in chosen unit: Sum: 60 Percent: 5.06

Description:

Regulatory Enforcement, Factor 6 of the WJP Rule of Law Index, measures the extent to which regulations are fairly and effectively implemented and enforced. Regulations, both legal and administrative, structure behaviors within and outside of the government. This factor does not assess which activities a government chooses to regulate, nor does it consider how much regulation of a particular activity is appropriate. Rather, it examines how regulations are implemented and enforced.

3.3.1.95 Confidence: Justice System/Courts (wvs_confjs)

Long tag: qog_std_ts_wvs_confjs

Original tag: wvs_confjs

Dataset citation: Teorell et al. (2025)

Variable citation: EVS (2020)

Merge scores:

Non-missing observations in original unit: Sum: 381, Percent: 2.49

Non-missing observations in chosen unit: Sum: 375, Percent: 1.25

Lost observations in chosen unit: Sum: 6 Percent: 1.57

Description:

I am going to name a number of organizations. For each one, could you tell me how much confidence you have in them: Justice System/Courts

1. None at all
2. Not very much
3. Quite a lot

4. A great deal

3.3.1.96 Confidence: The Police (wvs_confpol)

Long tag: qog_std_ts_wvs_confpol

Original tag: wvs_confpol

Dataset citation: Teorell et al. (2025)

Variable citation: EVS (2020)

Merge scores:

Non-missing observations in original unit: Sum: 413, Percent: 2.7

Non-missing observations in chosen unit: Sum: 407, Percent: 1.36

Lost observations in chosen unit: Sum: 6 Percent: 1.45

Description:

I am going to name a number of organizations. For each one, could you tell me how much confidence you have in them: The Police

1. None at all
2. Not very much
3. Quite a lot
4. A great deal

3.3.2 Political System

This category includes variables describing the rules of the political system (presidential or parliamentary system), the chief executive (years in office), regime type, stability (age of present regime), and checks and balances as well as aspects of federalism.

3.3.2.1 Law: citizens have a right to request public information from state bodies (aii_q41)

Long tag: qog_std_ts_aii_q41

Original tag: aii_q41

Dataset citation: Teorell et al. (2025)

Variable citation: Global Integrity and African Institute for Development Policy (2024)

Merge scores:

Non-missing observations in original unit: Sum: 270, Percent: 1.77

Non-missing observations in chosen unit: Sum: 260, Percent: 0.87

Lost observations in chosen unit: Sum: 10 Percent: 3.7

Description:

Sub-score (0-100). Question no. 41. In law, citizens have a right to request public information from state bodies.

A 100 score is earned where all the following conditions are met:

- 1) a Constitutional principle guarantees citizens' rights to request and receive access to any public documents and information, and
- 2) there is a specific access to information law that establishes the process for this right to be

implemented. Note: It's possible to score 100 if national security or individual privacy information is protected, as long as the law defines the parameters and processes to declare what information is protected and they are limited in scope. Just the constitutional protection is not enough to score 100.

A 0 score is earned if there is no such law, or a law exists but it doesn't mandate all the conditions described in 100.

3.3.2.2 No Interference of Religious Dogmas (bti_nird)

Long tag: qog_std_ts_bti_nird

Original tag: bti_nird

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent are legal order and political institutions defined without interference by religious dogmas? From 1 to 10.

1. The state is theocratic. Religious dogmas define legal order and political institutions.
4. Secular and religious norms are in conflict over the basic constitution of the state or are forming a hybrid system.
7. The state is largely secular. However, religious dogmas have considerable influence on legal order and political institutions.
10. The state is secular. Religious dogmas have no noteworthy influence on legal order or political institutions.

3.3.3 Gender Equality

This category includes variables related to the differences of access and opportunities between women and men by country, such as access to education, overall employment and employment by specific sectors, and indexes that shine a light on the general differences in treatment between men and women.

3.3.3.1 Equal Opportunity (bti_eo)

Long tag: qog_std_ts_bti_eo

Original tag: bti_eo

Dataset citation: Teorell et al. (2025)

Variable citation: Donner et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 1153, Percent: 7.54

Non-missing observations in chosen unit: Sum: 1113, Percent: 3.71

Lost observations in chosen unit: Sum: 40 Percent: 3.47

Description:

To what extent does equality of opportunity exist? From 1 to 10.

1. Equality of opportunity is not achieved. Women and/or members of ethnic or religious groups have only very limited access to education, public office, and employment. There are no legal provisions against discrimination.

4. Equality of opportunity is only partially achieved. Women and/or members of ethnic, religious, and other groups have limited access to education, public office, and employment. There are some legal provisions against discrimination, but their implementation is highly deficient.

7. Equality of opportunity is largely achieved. Women and members of ethnic or religious groups have near-equal access to education, public office, and employment. There are a number of legal provisions against discrimination, but their implementation is at times insufficient.

10. Equality of opportunity is achieved. Women and members of ethnic or religious groups have equal access to education, public office, and employment. There is a comprehensive and effective legal and institutional framework for the protection against discrimination.

3.3.3.2 Comparative Abortion Index 1 (0 to 7) (cai_cai1)

Long tag: qog_std_ts_cai_cai1

Original tag: cai_cai1

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

The scale quantifies grounds on which a country might grant legal access to abortion: saving a woman's life, preserving a woman's physical health, preserving a woman's mental health, in case of rape or incest, in case of fetal impairment, for social or economic reasons, and on request. 0 represents a country with a complete ban on abortions. 7 represents a country that allows abortions on request.

3.3.3.3 Comparative Abortion Index 2 (0 to 1) (cai_cai2)

Long tag: qog_std_ts_cai_cai2

Original tag: cai_cai2

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Using the 7 grounds for legal abortion, the weight of each grounds (W_i) will be determined based on the percentage (P_i) of countries that allow it. In the weighted index, countries are given a score on a scale of 0-1, where 0 represents countries in which there are no conditions for legal abortion, and 1 represents a country that accepts all criteria for abortion, including on request. The need for a weighted scale is as follows: It would be imprecise, for instance, to suggest that the criterion of saving a woman's life is equivalent to (and thus carries the same weight as) allowing abortion on demand. The more permissive the criterion, the less likely that it is universally accepted. Thus, the scale accounts for the different degrees of acceptance that each criterion represents.

3.3.3.4 Foetal impairment is accepted as grounds for legal abortion (cai_foetal)

Long tag: qog_std_ts_cai_foetal

Original tag: cai_foetal

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not foetal impairment is accepted as grounds for a legal abortion. 1 means that it is accepted as grounds for abortion. 0 means that it is illegal, and not accepted as grounds for legal abortion.

3.3.3.5 Threat to mother's life is accepted as grounds for legal abortion (cai_life)

Long tag: qog_std_ts_cai_life

Original tag: cai_life

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not threat to a mother's life is accepted as grounds for a legal abortion. 1 means that it is accepted as grounds for abortion. 0 means that it is illegal, and not accepted as grounds for legal abortion.

3.3.3.6 Threat to mother's mental health is accepted as grounds for legal abortion (cai_mental)

Long tag: qog_std_ts_cai_mental

Original tag: cai_mental

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not threat to a mother's mental health is accepted as grounds for a legal abortion. 1 means that it is accepted as grounds for abortion. 0 means that it is illegal, and not accepted as grounds for legal abortion.

3.3.3.7 Threat to mother's physical health is accepted as grounds for legal abortion (cai_physical)

Long tag: qog_std_ts_cai_physical

Original tag: cai_physical

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not threat to a mother's physical health is accepted as grounds for a legal abortion. 1 means that it is accepted as grounds for abortion. 0 means that it is illegal, and not accepted as grounds for legal abortion.

3.3.3.8 Pregnancy as result of rape or incest is accepted as grounds for legal abortion (cai_rape)

Long tag: qog_std_ts_cai_rape

Original tag: cai_rape

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not pregnancy as a result of rape or incest is accepted as grounds for a legal abortion. 1 means that they are accepted as grounds for abortion. 0 means that it is illegal, and they are not accepted as grounds for legal abortion.

3.3.3.9 Abortion is available on request (cai_request)

Long tag: qog_std_ts_cai_request

Original tag: cai_request

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether abortion is available on request. In other words, if there is complete legal access to abortion. 1 implies that there is complete access to abortion. 0 implies that there are limitations, and abortion services are not legally available upon request.

3.3.3.10 Social or economic reasons are accepted as grounds for legal abortion (cai_social)

Long tag: qog_std_ts_cai_social

Original tag: cai_social

Dataset citation: Teorell et al. (2025)

Variable citation: Forman-Rabinovici & Sommer (2018)

Merge scores:

Non-missing observations in original unit: Sum: 4530, Percent: 29.63

Non-missing observations in chosen unit: Sum: 3969, Percent: 13.24

Lost observations in chosen unit: Sum: 561 Percent: 12.38

Description:

Binary variable that codes whether or not social or economic reasons are accepted as grounds for a legal abortion. 1 means that they are accepted as grounds for abortion. 0 means that it is illegal, and they are not accepted as grounds for legal abortion.

3.3.3.11 Women's Economic Rights (ciri_wecon)

Long tag: qog_std_ts_ciri_wecon

Original tag: ciri_wecon

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6397, Percent: 41.84

Non-missing observations in chosen unit: Sum: 5772, Percent: 19.26

Lost observations in chosen unit: Sum: 625 Percent: 9.77

Description:

Women's economic rights include a number of internationally recognized rights. These rights

include:

- Equal pay for equal work
- The right to free choice of gainful employment or profession without the need to obtain a husband or male relative's consent
- Equality in hiring and promotion practices
- Job security (maternity leave, unemployment benefits, no arbitrary firing or layoffs, etc.)
- Non-discrimination by employers
- The right to be free from sexual harassment in the workplace
- The right to work at night

- The right to work in occupations classified as dangerous, including the military and police force.

In measuring women's economic rights the authors are primarily interested in two things: 1) the extensiveness of laws pertaining to women's economic rights; 2) government practices towards

women or how effectively the government enforces the laws.

Scoring Scheme:

Regarding the economic equality of women:

(0) There are no economic rights for women under law and systematic discrimination based on sex

may be built into the law. The government tolerates a high level of discrimination against women.

(1) There are some economic rights for women under law; however, in practice, the government

does not enforce the laws effectively or enforcement of laws is weak. The government tolerates a

moderate level of discrimination against women.

(2) There are some economic rights for women under law. In practice, the government does enforce

these laws effectively. However, the government still tolerates a low level of discrimination against

women.

(3) All or nearly all of women's economic rights are guaranteed by law. In practice, the government

fully and vigorously enforces these laws. The government tolerates no or almost no discrimination

against women.

3.3.3.12 Women's Political Rights (ciri_wopol)

Long tag: qog_std_ts_ciri_wopol

Original tag: ciri_wopol

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6447, Percent: 42.16

Non-missing observations in chosen unit: Sum: 5823, Percent: 19.43

Lost observations in chosen unit: Sum: 624 Percent: 9.68

Description:

Women's political rights include a number of internationally recognized rights. These rights include:

- The right to vote
- The right to run for political office
- The right to hold elected and appointed government positions
- The right to join political parties
- The right to petition government officials.

A score of 0 indicates that women's political rights were not guaranteed by law during a given year. A score of 1 indicates that women's political rights were guaranteed in law, but severely prohibited in practice. A score of 2 indicates that women's political rights were guaranteed in law, but were still moderately prohibited in practice. Finally, a score of 3 indicates that women's political rights were guaranteed in both law and practice.

3.3.3.13 Women Business and the Law Index Score (scale 1-100) (wdi_wombuslawi)

Long tag: qog_std_ts_wdi_wombuslawi

Original tag: wdi_wombuslawi

Dataset citation: Teorell et al. (2025)

Variable citation: World Bank (2024)

Merge scores:

Non-missing observations in original unit: Sum: 8913, Percent: 58.29

Non-missing observations in chosen unit: Sum: 8061, Percent: 26.89

Lost observations in chosen unit: Sum: 852 Percent: 9.56

Description:

Women Business and the Law Index Score (1-100) measures how laws and regulations affect women's economic opportunity. Overall scores are calculated by taking the average score of each of the eight areas (Going Places, Starting a Job, Getting Paid, Getting Married, Having Children, Running a Business, Managing Assets and Getting a Pension), with 100 representing the highest possible score.

3.3.3.14 Women's Social Rights Laws (ciri_wosoc_l)

Long tag: qog_std_ts_ciri_wosoc_l

Original tag: ciri_wosoc_l

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 2935, Percent: 19.19

Non-missing observations in chosen unit: Sum: 2618, Percent: 8.73

Lost observations in chosen unit: Sum: 317 Percent: 10.8

Description:

Women's social rights include a number of internationally recognized rights. These rights include the following criteria:

- The right to equal inheritance
- The right to enter into marriage on a basis of equality with men
- The right to travel abroad
- The right to obtain a passport
- The right to confer citizenship to children or a spouse
- The right to initiate a divorce
- The right to own, acquire, manage, and retain property brought into marriage
- The right to participate in social, cultural, and community activities
- The right to an education
- The freedom to choose a residence/domicile
- Freedom from female genital mutilation (FGM) of children/adults without their consent

- Freedom from forced sterilization
- Freedom from child marriage (where the laws differ between boys and girls)
- Right to raise and make decisions regarding children with equal authority to men or husbands

Scoring Scheme:

Regarding the country's legal recognition of women's social rights:

(0) There are no social rights for women under law and systematic discrimination based on sex may

be built into the law and/or if 5 or more of the above criteria are not adequately met.

(1) There are some social rights for women by law.

(2) Nearly all social rights for women are guaranteed by law

(3) All women's social rights are guaranteed by law and/or all of the above criteria are met or are not

mentioned

3.3.3.15 Women's Social Rights Practices (ciri_wosoc_p)

Long tag: qog_std_ts_ciri_wosoc_p

Original tag: ciri_wosoc_p

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 2937, Percent: 19.21

Non-missing observations in chosen unit: Sum: 2619, Percent: 8.74

Lost observations in chosen unit: Sum: 318 Percent: 10.83

Description:

Women's social rights include a number of internationally recognized rights. These rights include the following criteria:

- The right to equal inheritance

- The right to enter into marriage on a basis of equality with men
- The right to travel abroad
- The right to obtain a passport
- The right to confer citizenship to children or a spouse
- The right to initiate a divorce
- The right to own, acquire, manage, and retain property brought into marriage
- The right to participate in social, cultural, and community activities
- The right to an education
- The freedom to choose a residence/domicile
- Freedom from female genital mutilation (FGM) of children/adults without their consent
- Freedom from forced sterilization
- Freedom from child marriage (where the laws differ between boys and girls)
- Right to raise and make decisions regarding children with equal authority to men or husbands

Scoring Scheme:

Regarding the country's recognition of women's social rights in practice:

(0) The government tolerates a high level of discrimination against women.

(1) In practice, the government does not enforce laws effectively or enforcement of laws is weak.

The government tolerates a moderate level of discrimination against women.

(2) In practice, the government does enforce these laws effectively; however, the government still

tolerates a low level of discrimination against women.

(3) In practice, the government fully and vigorously enforces these laws. The government tolerates

none or almost no discrimination against women.

3.3.4 Labour Market

This category includes variables about employment, unemployment and union density rate, in general, as well as in subgroups of the population.

3.3.4.1 Limits on Child Work in Constitution (ccp_childwrk)

Long tag: qog_std_ts_ccp_childwrk

Original tag: ccp_childwrk

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution place limits on child employment?

1. Yes

2. No

90. Left explicitly to non-constitutional law

96. Other

3.3.5 Civil Society, Population and Culture

This category includes variables that relate to social capital, personal beliefs, size and distribution of the population as well as ethnic and linguistic fractionalization.

3.3.5.1 Right to Marry in Constitution (ccp_marriage)

Long tag: qog_std_ts_ccp_marriage

Original tag: ccp_marriage

Dataset citation: Teorell et al. (2025)

Variable citation: Elkins & Ginsburg (2021)

Merge scores:

Non-missing observations in original unit: Sum: 10066, Percent: 65.83

Non-missing observations in chosen unit: Sum: 8840, Percent: 29.49

Lost observations in chosen unit: Sum: 1226 Percent: 12.18

Description:

Does the constitution provide for the right to marry?

1. Yes, general provision

2. Yes, marriage is allowed between a man and a woman

3. No

90. Left explicitly to non-constitution law

96. Other

3.3.5.2 Freedom of Assembly and Association (ciri_assn)

Long tag: qog_std_ts_ciri_assn

Original tag: ciri_assn

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 6840, Percent: 44.73

Non-missing observations in chosen unit: Sum: 6167, Percent: 20.58

Lost observations in chosen unit: Sum: 673 Percent: 9.84

Description:

It is an internationally recognized right of citizens to assemble freely and to associate with other persons in political parties, trade unions, cultural organizations, or other groups. This variable evaluates the extent to which the freedoms of assembly and association are subject to actual governmental limitations or restrictions (as opposed to strictly legal protections).

Scoring Scheme:

Citizens' rights to freedom of assembly and association are:

(0) Severely restricted or denied completely to all citizens.

(1) Limited for all citizens or severely restricted or denied for select groups.

(2) Virtually unrestricted and freely enjoyed by practically all citizens.

3.3.5.3 Safety and Security (gpi_ss)

Long tag: qog_std_ts_gpi_ss

Original tag: gpi_ss

Dataset citation: Teorell et al. (2025)

Variable citation: Institute for Economics and Peace (2022)

Merge scores:

Non-missing observations in original unit: Sum: 2540, Percent: 16.61

Non-missing observations in chosen unit: Sum: 2472, Percent: 8.25

Lost observations in chosen unit: Sum: 68 Percent: 2.68

Description:

Societal Safety and Security (scaled 1 to 5, 5 being less secure) is one of the three subdomains of the GPI. Low crime rates, minimal terrorist activity and violent demonstrations, harmonious relations with neighbouring countries, a stable political scene and a small proportion of the population being internally displaced or made refugees can be equated with peacefulness.

3.3.6 Religion

This category includes variables regarding numbers of followers of specific religions and the status of religion in the constitution.

3.3.6.1 Government Restrictions on Religious Practices (ciri_relfre)

Long tag: qog_std_ts_ciri_relfre

Original tag: ciri_relfre

Dataset citation: Teorell et al. (2025)

Variable citation: Mark et al. (2023)

Merge scores:

Non-missing observations in original unit: Sum: 7188, Percent: 47.01

Non-missing observations in chosen unit: Sum: 6262, Percent: 20.89

Lost observations in chosen unit: Sum: 926 Percent: 12.88

Description:

This variable indicates the extent to which the freedom of citizens to exercise and practice their religious beliefs is subject to actual government restrictions. Citizens of whatever religious belief should be able to worship free from government interference. Additionally, citizens should be able to hold no religion at all.

Citizens should be able to freely practice their religion and proselytize (attempt to convert) other citizens to their religion as long as such attempts are done in a non-coercive, peaceful manner.

Members of the clergy should be able to advocate partisan political views freely, oppose government laws, support political candidates, and otherwise freely participate in politics without fear of government prosecution.

Some important questions to consider include: Does the government respect rights to religious expression, including the freedom to publish religious documents in foreign languages? Does religious belief affect membership in a ruling party or a career in government? Does the government prohibit promotion of one religion over another, or discriminate on the grounds of religion or belief? Does the government restrict the teaching or practice of any faith? Does the government discriminate against minority religious groups?

Scoring Scheme:

Government restrictions on religious practices are:

(0) Severe and Widespread

(1) Moderate

(2) Practically Absent

3.3.7 Private Economy

This category includes variables characterizing the private sector in a country, inter alia: regulation of the private sector, indicators concerning economic characteristics of groups in the society, such as poverty and household consumption, as well as tax rates.

3.3.7.1 Economic Freedom of the World Index (current) (fi_index)

Long tag: qog_std_ts_fi_index

Original tag: fi_index

Dataset citation: Teorell et al. (2025)

Variable citation: Gwartney et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 3893, Percent: 25.46

Non-missing observations in chosen unit: Sum: 3743, Percent: 12.49

Lost observations in chosen unit: Sum: 150 Percent: 3.85

Description:

The index is founded upon objective components that reflect the presence (or absence) of economic freedom. The index comprises 21 components designed to identify the consistency of institutional arrangements and policies with economic freedom in five major areas: size of government (fi_sog), legal structure and security of property rights (fi_legprop), access to sound money (fi_sm), freedom to trade internationally (fi_ftradeint), regulation of credit, labor and business (fi_reg). The index ranges from 0-10 where 0 corresponds to “less economic freedom” and 10 to “more economic freedom”. This is the version of the index published at the current year of measurement, without taking methodological changes over time into account.

3.3.7.2 Legal Structure and Security of Property Rights (current) (fi_legprop)

Long tag: qog_std_ts_fi_legprop

Original tag: fi_legprop

Dataset citation: Teorell et al. (2025)

Variable citation: Gwartney et al. (2024)

Merge scores:

Non-missing observations in original unit: Sum: 4343, Percent: 28.4

Non-missing observations in chosen unit: Sum: 4162, Percent: 13.89

Lost observations in chosen unit: Sum: 181 Percent: 4.17

Description:

The index ranges from 0-10 where 0 corresponds to “no judicial independence”, “no trusted

legal framework exists”, “no protection of intellectual property”, “military interference in rule of law”, and “no integrity of the legal system” and 10 corresponds to “high judicial independence”, “trusted legal framework exists”, “protection of intellectual property”, “no military interference in rule of law”, and “integrity of the legal system”. The index consists of the following indicators: Judicial independence: The judiciary is independent and not subject to interference by the government or parties in dispute, Impartial courts: A trusted legal framework exists for private businesses to challenge the legality of government actions or regulations, Protection of intellectual property, Military interference in rule of law and the political process, Integrity of the legal system.

3.3.7.3 The Property Right Protection Index (prp_prp)

Long tag: qog_std_ts_prp_prp

Original tag: prp_prp

Dataset citation: Teorell et al. (2025)

Variable citation: Ouattara & Standaert (2020)

Merge scores:

Non-missing observations in original unit: Sum: 3713, Percent: 24.28

Non-missing observations in chosen unit: Sum: 3451, Percent: 11.51

Lost observations in chosen unit: Sum: 262 Percent: 7.06

Description:

The Property Rights Index measures (the perception of) the security of property rights, separately from other aspects of the rule of laws. It combines all publicly available information on the perception of the security of property rights (18 singular indicators of property rights).

4 V-DEM

Based at the University of Gothenburg, the **Varieties of Democracy (V-Dem)** Research Project takes a comprehensive approach to understanding democratization. This approach encompasses multiple core principles: electoral, liberal, majoritarian, consensual, participatory, deliberative, and egalitarian. Each Principle is represented by a separate index, and each is regarded as a separate outcome in the proposed study. In this manner V-Dem reconceptualizes democracy from a single outcome to a set of outcomes. In addition, V-Dem breaks down each core principle into its constituent components, each to be measured separately. Components include features such as free and fair elections, civil liberties, judicial independence, executive constraints, gender equality, media freedom, and civil society. Finally, each component is disaggregated into specific indicators. This fundamentally different approach to democratization is made possible by the V-Dem Database, which measures 450+ indicators annually from 1789 to the present for all countries of the world. The V-Dem approach stands out, first, as a large global collaboration among scholars with diverse areas of expertise; second, as the first project attempting to explain different varieties of democracy; and third, thanks to the highly disaggregated V-Dem data, the first project to explore causal mechanisms linking different aspects of democracy together. With five Principal Investigators, 19 Project Managers with special responsibility for issue areas covered in the V-Dem dataset, around 23 Regional Managers, 134 Country Coordinators and more than 4000 Country Experts, the V-Dem project is one of the world's largest social science data collection projects on democracy. More information is available on the project's website: <https://www.v-dem.net/>

4.1 V-Dem Country-Year: V-Dem Full+Others v15

Dataset tag: `vdem_cy`

Output Unit: V-Dem Country-Year, i.e., data is collected per country and year. That means each row in the dataset can be identified by one country in combination with a year, using the columns `country_name` and `year`. The unit can also be expressed through a combination of the columns `country_id` or `country_text_id` and `year`.

Description: All 531 V-Dem indicators and 245 indices + 60 other indicators from other data sources. For R users, we recommend to install our `vdemdata` R package which includes the most recent V-Dem dataset and some useful functions to explore the data.

QUESTION: To what extent does the executive respect the constitution and comply with court rulings, and to what extent is the judiciary able to act in an independent fashion?

SCALE: Interval, from low to high (0-1).

SOURCE(S): v2exrescon v2jucomp v2juhccomp v2juhcind v2juncind

DATA RELEASE: 1-15.

AGGREGATION: The index is formed by taking the point estimates from a Bayesian factor analysis model of the indicators for executive respects constitution (v2exrescon), compliance with judiciary (v2jucomp), compliance with high court (v2juhccomp), high court independence (v2juhcind), and lower court independence (v2juncind).

COUNTRY-YEAR AGGREGATION: Day-weighted mean

CITATION: Pemstein et al. (2024); Coppedge et al. (2025b)

YEARS: 1789-2024

4.1.2 V-Dem Indicators - Elections

Instructions to the coders (as shown in the surveys) **Elections:** Among national elections we distinguish elections to: (i) the lower or unicameral chamber of the legislature

(including constituent or constitutional assemblies), (ii) the upper chamber of the legislature, and (iii) the presidency. For present purposes an executive who is elected by a legislature is considered a *prime minister*, not a president. In order to be considered a *president*, an executive must, under ordinary circumstances, be chosen directly by the electorate (perhaps mediated by an electoral college).

Non-election specific coding: The following questions are not election-specific and should be coded for every year from 1900 (or when applicable) to the present.

Election specific questions: The following questions pertain to specific national elections. The date of each election is pre-coded. In cases where more than one election is held on the same day(s), the questions in this section are for all elections taking place on that date. If you have coded for V-Dem in the past, your previous scores will be displayed in the survey. You are welcome to revise previously submitted scores in all surveys. For this section, we kindly ask you make sure that you have coded all election years.

Election specific questions – Historical clarification: The following questions pertain to specific national elections. National elections include elections to the presidency (if applicable) and legislature (lower and upper house, whatever applies), whether direct or indirect, as well as constituent assembly elections. It does not include other elections, *e.g.*, subnational elections, plebiscites, initiatives, referendums, or by-elections. The date of each election is pre-coded. In cases where more than one election is held on the same day(s), the questions in this section are for all elections taking place on that date."

Subnational elections and offices: This section of the survey asks a small number of questions about *subnational* elections and offices. You will be instructed to identify two subnational levels, referred to as "regional government" and "local government". Questions in this section should be answered for every year, rather than for specific elections.

Lower chamber election: The following questions pertain to specific lower chamber or unicameral legislative elections. The dates of these elections have been pre-coded.

Executive and legislative versions of Election specific variables

- In order to subset election specific variables for executive elections only (previously *_ex) – keep only those observations where v2xel_elecpres is 1.
- In order to subset election specific variables for legislative elections only (previously *_leg) – keep only those observations where v2xel_elecparl is 1.

4.1.2.1 Election government intimidation (v2elintim)

Long tag: vdem_cy_v2elintim

Original tag: v2elintim

Dataset citation: Coppedge et al. (2025b), Coppedge et al. (2025a)

Variable citation: Pemstein et al. (2024), Coppedge et al. (2025b)

Merge scores:

Non-missing observations in original unit: Sum: 15662, Percent: 56.47

Non-missing observations in chosen unit: Sum: 15662, Percent: 52.25

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Staffan I. Lindberg

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: In this national election, were opposition candidates/parties/campaign workers subjected to repression, intimidation, violence, or harassment by the government, the ruling party, or their agents?

CLARIFICATION: Other types of clearly distinguishable civil violence, even if politically motivated, during the election period should *not* be factored in when scoring this indicator (it is dealt with separately).

RESPONSES:

0: Yes. The repression and intimidation by the government or its agents was so strong that

the entire period was quiet.

1: Yes, frequent: There was systematic, frequent and violent harassment and intimidation of the opposition by the government or its agents during the election period.

2: Yes, some. There was periodic, not systematic, but possibly centrally coordinated — harassment and intimidation of the opposition by the government or its agents.

3: Restrained. There were sporadic instances of violent harassment and intimidation by the government or its agents, in at least one part of the country, and directed at only one or two local branches of opposition groups.

4: None. There was no harassment or intimidation of opposition by the government or its agents, during the election campaign period and polling day.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 1-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see *V-Dem Methodology*).

COUNTRY-YEAR AGGREGATION: Mean

DATE SPECIFIC: Election-specific dates (v2eltype).

CITATION: Pemstein et al. (2024); Coppedge et al. (2025b).

YEARS: 1789-2024

CONVERGENCE: Model parameters with convergence issues: universal thresholds.

4.1.3 V-Dem Indicators - The Executive

Instructions to the coders (as shown in the surveys)

Executive:

In this section, we distinguish between the head of state (HOS) and the head of government (HOG). The *head of state* is an individual or collective body that serves as the chief public representative of the country. Sometimes this is a largely ceremonial role, *e.g.* a monarch who reigns but does not rule, or a president whose powers are strictly circumscribed. The *head of government* is the chief officer(s) of the executive branch of government, typically presiding over a cabinet. In a parliamentary system, this is usually the prime minister. In a presidential system, this is usually the president, who then serves as both, head of state and head of government. In a typical semi-presidential system, the president serves as head of state and the prime minister serves as head of government.

These definitions are grounded in the *functions* that each office performs, as described above. Titles can be confusing. Do not assume, for example, that simply because an individual holds the title of "president" s/he is serving as the chief public representative of the country. Likewise, it may be that the *effective* head of state/head of government is someone other than the *official* head of state/head of government. In this instance, the following questions apply to the person who effectively wields this power. In some socialist systems, for example, the official head of state was a person within the state bureaucracy, but in practice the chief public representative of the country was the chairman of the communist party. It is the latter who is the "effective" head of state, and hence should be the focus of your answers. The same applies if the head of state/head of government is so old, sick or perhaps mentally disabled that s/he cannot perform his/her functions, which are instead performed by someone else. It is the latter person who is the effective head of state/head of government.

If you are considering a semi sovereign territory, such as a colony, an annexed territory or a member of the British Commonwealth, please answer the following questions with respect to the head of state and (if separate) the head of government who is located in the territory in question. Thus, in a typical British colony the governor-general—not the King/Queen of England—would be understood as the head of state. Likewise, in a British colony the local prime minister in the colony—not the prime minister in London—would be understood as the head of government.

In order to mitigate potential misunderstandings, the identities of the head of state and head of government for each country have been pre-coded for as many years as possible. Thus, when conducting your coding make sure to pay close attention to the names of these individuals, which you can see by clicking on the year grid for a particular year in the first question of this section, "HOS name." This is your key to what we mean by "head of state" or "head of government."

Note also that when the two functions are fused in the same office, we ask you to code only the head of state section of the survey. Any precoded years contain an orange triangle. This means that

either the score or text and/or specific date have already been entered, so we are asking you only to add your confidence in the precoded rating; we do not want you to change the rating, as we need all the Country Experts to answer the subsequent questions for the same executives. If you feel strongly that the precoded information is wrong, please rate your confidence in the preloaded information and then consult your V-Dem contact. You will have to rate confidence in all the available years in order to proceed to the next question.

In order to avoid spending time on short-lived executives, we have included only executives who held office for at least 100 days.

4.1.3.1 Executive respects constitution (v2exrescon)

Long tag: vdem_cy_v2exrescon

QUESTION: Do members of the executive (the head of state, the head of government, and cabinet ministers) respect the constitution?

RESPONSES:

0: Members of the executive violate the constitution whenever they want to, without legal consequences.

1: Members of the executive violate most provisions of the constitution without legal consequences, but still must respect certain provisions.

2: Somewhere in between (1) and (3). Members of the executive would face legal consequences for violating most provisions of the constitution, but can disregard some provisions without any legal consequences.

3: Members of the executive rarely violate the constitution, and when it happens they face legal charges.

4: Members of the executive never violate the constitution.

SCALE: Ordinal, converted to interval by the measurement model.

YEARS: 1789-2024

4.1.4 V-Dem Indicators - The Legislature

Instructions to the coders (as shown in the surveys)

The Legislature:

The following questions pertain to the legislature, an assembly of deputies or representatives with powers to consider, pass, amend, or repeal laws. If there is no legislature in the country you are coding for some period of years, do not code any questions for those year. If you are considering a semi-sovereign territory such as a colony please answer this question with respect to the legislature that is seated within the territory in question (such as the local legislative assembly in a British colony, not the Parliament in London). A popular election need not involve universal suffrage; indeed, suffrage may be highly restricted. A "direct election" can include seats reserved for special groups (*e.g.*, ethnic

groups or women) so long as these members are chosen by popular election.

Frequently, it is important to distinguish between formal rules (as stipulated by statute, legislative rules, the constitution, or common law precedent) and actual practice (what happens on the ground). In order to clarify the *de jure/de facto* distinction, we employ the terms "by law..." and "in practice..." Please pay close attention to these cues. Note that sometimes we ask different coders to code different aspects of a question. So, you might get a question about the *de facto* state of affairs, but another source might provide the answer to the *de jure* state of affairs.

YEARS: 1789-2024

CONVERGENCE: Model parameters with convergence issues: country-date latent trait estimates, universal thresholds, expert reliability, expert thresholds, main-country-coded thresholds.

4.1.5 V-Dem Indicators - The Judiciary

Instructions to the coders (as shown in the surveys)

Judiciary: This set of questions pertains to the judiciary. Before you proceed, we would like to clarify several general points. First, some questions below refer to the judiciary in general, whereas others ask for specific evaluations of particular courts or types of courts. Unless otherwise prompted, please consider the judiciary as a whole. This includes all courts in the judicial system at every level, both general jurisdiction courts and more specialized courts. However, with potentially one exception, it excludes specialized courts that are located outside the judiciary, *e.g.* an immigration court that lies inside the executive branch. The one potential exception is the peak constitutional court of the country. Please include this court in your considerations, even though it will be located outside of the judiciary in some countries. If the country you are coding is a federal state, please focus only on the federal judiciary and the federal government.

Seven of the questions about the judiciary concern high courts. By "high court" we are asking you to consider the country's constitutional court, if one exists. If there is no constitutional court, please consider the court of last resort for constitutional matters. If there is no court in your country with constitutional jurisdiction, please consider the highest ordinary court of the state.

For example, in Mexico in 2004, you would consider the Supreme Court of Justice of the Nation and not the Electoral Tribunal for the Federal Judiciary. In Russia in the same year, you would consider the Constitutional Court of the Russian Federation and not the Supreme Court of the Russian Federation. In Sweden, you would ignore the Supreme Administrative Court and instead focus on the Supreme Court. Germany has both a constitutional court, the Federal Constitutional Court, and a court of last resort for ordinary matters, the Federal Court of Justice. The Federal Constitutional Court is the high court for our purposes. In the United States, there is no separate constitutional court or review body. The Supreme Court is both the highest ordinary court and the highest court in the state with constitutional jurisdiction. Therefore, we consider it to be the high court of the United States. skip If your country's highest judicial body has separate divisions, only one of which is dedicated to final constitutional review, please consider that division to be the high court if its judges are permanently assigned to that division only. For example, the Supreme Court of Justice of Costa Rica has four chambers. The Fourth Chamber reviews constitutional matters, its judges are appointed to it specifically and the other judges of the Supreme Court do not rotate onto the Fourth Chamber. Therefore, the high court for Costa Rica is the constitutional chamber of the Supreme Court of Justice.

If a new high court was established in a given year, please consider that court as the high court for the purposes of these questions only if the court was functioning for the majority of the calendar

year. If a new high court was established in a given year, but did not start functioning until a subsequent year, please do not consider the new court as the high court until it was functioning for the majority of the given calendar year. If you are considering a semi sovereign territory, such as a colony, please answer this question with respect to the government or judicial bodies seated within the territory in question (*e.g.*, the governor-general and his local administration in a British colony or a Commonwealth country), not abroad (*e.g.*, the King/Queen or government of England).

In coding the following questions it is sometimes important to distinguish between formal rules (as stipulated by statute, legislative rules, the constitution, or common law precedent) and actual practice (what happens "on the ground"). In order to clarify the *de jure/de facto* distinction, we employ the terms "by law..." and "in practice..." Please pay close attention to these cues wherever you see them.

4.1.5.1 Judicial reform (v2jureform)

Long tag: vdem_cy_v2jureform

Original tag: v2jureform

QUESTION: Were the judiciary's formal powers altered this year in ways that affect its ability to control the arbitrary use of state authority?

CLARIFICATION: Evidence of this kind of reform could include the creation or removal of various forms of constitutional review, new rules increasing or decreasing access to the judiciary, changes in available judicial remedies, and any other formal institution (procedural or otherwise) that influences the ability of courts to control the arbitrary use of power.

RESPONSES:

0: The judiciary's ability to control arbitrary power was *reduced* via institutional reform.

1: There was no change to the judiciary's ability to control arbitrary power via institutional review.

2: The judiciary's ability to control arbitrary power was *enhanced* via institutional reform.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 1-15.

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Jeffrey Staton

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: The size of the judiciary is sometimes increased for very good reasons, as when judges are added to manage an increasing caseload; however, sometimes judges are added purely for political reasons. With this distinction in mind, please describe any increases in the size of the judiciary that occurred this calendar year.

CLARIFICATION: The second and third response categories permit you to distinguish among limited court packing efforts (*i.e.* when relatively few judgeships are added) by the political importance of the packing. For example, you may consider the packing of the high court to be more important than the packing of a lower court.

RESPONSES:

0: There was a massive, politically motivated increase in the number of judgeships across the entire judiciary.

1: There was a limited, politically motivated increase in the number of judgeships on very important courts.

2: There was a limited, politically motivated increase in the number of judgeships.

3: Judgeships were added to the judiciary, but there is no evidence that the increase was politically motivated; or there was no increase.

SCALE: Ordinal, converted to interval by the measurement model.

NOTES: A previous version of the variable contained category "4: There was no increase";. As of November 2014, all responses in category "4" are assigned to category "3", since the two responses have the same meaning in practice.

QUESTION: When the high court in the judicial system is ruling in cases that are salient to the government, how often would you say that it makes decisions that merely reflect government wishes regardless of its sincere view of the legal record?

CLARIFICATION: We are seeking to identify autonomous judicial decision-making and its absence. Decisions certainly can reflect government wishes without “merely reflecting”; those wishes, *i.e.* a court can be autonomous when its decisions support the government’s position. This is because a court can be fairly persuaded that the government’s position is meritorious. By “merely reflect the wishes of the government” we mean that the court’s own view of the record, its sincere evaluation of the record, is irrelevant to the outcome. The court simply adopts the government’s position regardless of its sincere view of the record.

4.1.6 V-Dem Indicators - Civil Liberty

Instructions to the coders (as shown in the surveys)

Civil Liberty: The following questions are focused on actual practices (*de facto*) rather than formal legal or constitutional rights (*de jure*). Note that if there is significant variation in the respect for a particular civil liberty across the territory, the score should reflect the "average situation" across the territorial scope of the country unit (for each period) as defined in the coder instructions.

4.1.6.1 Freedom from torture (v2cltort)*Long tag:* vdem_cy_v2cltort*Original tag:* v2cltort*Dataset citation:* Coppedge et al. (2025b), Coppedge et al. (2025a)*Variable citation:* Pemstein et al. QUESTION: Is there freedom from torture?

CLARIFICATION: Torture refers to the purposeful inflicting of extreme pain, whether mental or physical, with an aim to extract information or intimidate victims, who are in a state of incarceration. Here, we are concerned with torture practiced by state officials or other agents of the state (*e.g.*, police, security forces, prison guards, and paramilitary groups).

RESPONSES:

0: Not respected by public authorities. Torture is practiced systematically and is incited and approved by the leaders of government.

1: Weakly respected by public authorities. Torture is practiced frequently but is often not incited or approved by top leaders of government. At the same time, leaders of government are not actively working to prevent it.

2: Somewhat. Torture is practiced occasionally but is typically not approved by top leaders of government.

3: Mostly respected by public authorities. Torture is practiced in a few isolated cases but is not incited or approved by top government leaders.

4: Fully respected by public authorities. Torture is non-existent.

QUESTION: Is there freedom from political killings?

CLARIFICATION: Political killings are killings by the state or its agents without due process of law for the purpose of eliminating political opponents. These killings are the result

of deliberate use of lethal force by the police, security forces, prison officials, or other agents of the state (including paramilitary groups).

RESPONSES:

0: Not respected by public authorities. Political killings are practiced systematically and they are typically incited and approved by top leaders of government.

1: Weakly respected by public authorities. Political killings are practiced frequently and top leaders of government are not actively working to prevent them.

2: Somewhat respected by public authorities. Political killings are practiced occasionally but they are typically not incited and approved by top leaders of government.

QUESTION: Are the laws of the land clear, well publicized, coherent (consistent with each other), relatively stable from year to year, and enforced in a predictable manner?

CLARIFICATION: This question focuses on the transparency and predictability of the laws of the land.

RESPONSES:

0: Transparency and predictability are almost non-existent. The laws of the land are created and/or enforced in completely arbitrary fashion.

1: Transparency and predictability are severely limited. The laws of the land are more often than not created and/or enforced in arbitrary fashion.

2: Transparency and predictability are somewhat limited. The laws of the land are mostly created in a non-arbitrary fashion but enforcement is rather arbitrary in some parts of the country.

3: Transparency and predictability are fairly strong. The laws of the land are usually created and enforced in a non-arbitrary fashion.

4: Transparency and predictability are very strong. The laws of the land are created and enforced in a non-arbitrary fashion.

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: Are public officials rigorous and impartial in the performance of their duties?

CLARIFICATION: This question focuses on the extent to which public officials generally abide by the law and treat like cases alike, or conversely, the extent to which public administration is characterized by arbitrariness and biases (*i.e.*, nepotism, cronyism, or discrimination).

The question covers the public officials that handle the cases of ordinary people. If no functioning public administration exists, the lowest score (0) applies.

RESPONSES:

0: The law is not respected by public officials. Arbitrary or biased administration of the law is rampant.

1: The law is weakly respected by public officials. Arbitrary or biased administration of the law is widespread.

2: The law is modestly respected by public officials. Arbitrary or biased administration of the law is moderate.

3: The law is mostly respected by public officials. Arbitrary or biased administration of the law is limited.

4: The law is generally fully respected by the public officials. Arbitrary or biased administration of the law is very limited.

QUESTION: Do men enjoy secure and effective access to justice?

CLARIFICATION: This question specifies the extent to which men can bring cases before the courts without risk to their personal safety, trials are fair, and men have effective ability to seek redress if public authorities violate their rights, including the rights to counsel, defense, and appeal.

This question does not ask you to assess the *relative* access to justice men and women. Thus, it is possible to assign the lowest possible score to a country even if men and women enjoy equal — and extremely limited — access to justice.

RESPONSES:

0: Secure and effective access to justice for men is non-existent.

1: Secure and effective access to justice for men is usually not established or widely respected.

2: Secure and effective access to justice for men is inconsistently observed. Minor problems characterize most cases or occur rather unevenly across different parts of the country.

3: Secure and effective access to justice for men is usually observed.

4: Secure and effective access to justice for men is almost always observed.

QUESTION: Are men able to openly discuss political issues in private homes and in public spaces?

CLARIFICATION: This indicator specifies the extent to which men are able to engage in private discussions, particularly on political issues, in private homes and public spaces (restaurants, public transportation, sports events, work etc.) without fear of harassment by other members of the polity or the public authorities. We are interested in restrictions by the government and its agents but also cultural restrictions or customary laws that are enforced by other members of the polity, sometimes in informal ways.

This question does not ask you to assess the *relative* freedom of men and women. Thus, it is possible to assign the lowest possible score to a country even if men and women enjoy equal — and extremely low — rights to freedom of discussion.

RESPONSES:

0: Not respected. Hardly any freedom of expression exists for men. Men are subject to immediate and harsh intervention and harassment for expression of political opinion.

1: Weakly respected. Expressions of political opinions by men are frequently exposed to intervention and harassment.

2: Somewhat respected. Expressions of political opinions by men are occasionally exposed to intervention and harassment.

3: Mostly respected. There are minor restraints on the freedom of expression in the private sphere, predominantly limited to a few isolated cases or only linked to soft sanctions. But as a rule there is no intervention or harassment if men make political statements.

4: Fully respected. Freedom of speech for men in their homes and in public spaces is not restricted.

QUESTION: Is there freedom of religion?

CLARIFICATION: This indicator specifies the extent to which individuals and groups have the right to choose a religion, change their religion, and practice that religion in private or in public as well as to proselytize peacefully without being subject to restrictions by public authorities.

RESPONSES:

0: Not respected by public authorities. Hardly any freedom of religion exists. Any kind of religious practice is outlawed or at least controlled by the government to the extent that religious leaders are appointed by and subjected to public authorities, who control the activities of religious communities in some detail.

1: Weakly respected by public authorities. Some elements of autonomous organized religious practices exist and are officially recognized. But significant religious communities are repressed, prohibited, or systematically disabled, voluntary conversions are restricted, and instances of discrimination or intimidation of individuals or groups due to their religion are common.

2: Somewhat respected by public authorities. Autonomous organized religious practices exist and are officially recognized. Yet, minor religious communities are repressed, prohibited, or systematically disabled, and/or instances of discrimination or intimidation of individuals or groups due to their religion occur occasionally.

3: Mostly respected by public authorities. There are minor restrictions on the freedom of religion, predominantly limited to a few isolated cases. Minority religions face denial of registration, hindrance of foreign missionaries from entering the country, restrictions against proselytizing, or hindrance to access to or construction of places of worship.

4: Fully respected by public authorities. The population enjoys the right to practice any religious belief they choose. Religious groups may organize, select, and train personnel; solicit and receive contributions; publish; and engage in consultations without undue interference. If religious communities have to register, public authorities do not abuse the process to discriminate against a religion and do not constrain the right to worship before registration.

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: Do men enjoy freedom of movement within the country?

CLARIFICATION: This indicator specifies the extent to which all men are able to move freely, in daytime and nighttime, in public thoroughfares, across regions within a country, and to establish permanent residency where they wish. Note that restrictions in movement might be imposed by the state and/or by informal norms and practices. Such restrictions sometimes fall on rural residents, on specific social groups, or on dissidents.

This question does not ask you to assess the *relative* freedom of men and women. Thus, it is possible to assign the lowest possible score to a country even if men and women enjoy equal — and extremely low — freedom of movement.

Do *not* consider restrictions in movement that are placed on ordinary (non-political) criminals. Do not consider restrictions in movement that result from crime or unrest.

RESPONSES:

0: Virtually no men enjoy full freedom of movement (*e.g.*, North Korea).

1: Some men enjoy full freedom of movement, but most do not (*e.g.*, Apartheid South Africa).

2: Most men enjoy some freedom of movement but a sizeable minority does not. Alternatively all men enjoy partial freedom of movement.

3: Most men enjoy full freedom of movement but a small minority does not.

4: Virtually all men enjoy full freedom of movement.

QUESTION: Do men enjoy the right to private property?

CLARIFICATION: Private property includes the right to acquire, possess, inherit, and sell private property, including land. Limits on property rights may come from the state (which may legally limit rights or fail to enforce them); customary laws and practices; or religious or social norms. This question concerns the right to private property, not actual ownership of property.

This question does not ask you to assess the *relative* rights of men and women. Thus, it is possible to assign the lowest possible score to a country even if men and women enjoy equal — and very minimal — property rights.

RESPONSES:

0: Virtually no men enjoy private property rights of any kind.

1: Some men enjoy some private property rights, but most have none.

2: Many men enjoy many private property rights, but a smaller proportion enjoys few or none.

3: More than half of men enjoy most private property rights, yet a smaller share of men have

much more restricted rights.

4: Most men enjoy most private property rights but a small minority does not.

5: Virtually all men enjoy all, or almost all property rights.

SCALE: Ordinal, converted to interval by the measurement model.

4.1.7 V-Dem Indicators - Civil Society

Instructions to the coders (as shown in the surveys)

Civil society organization:

The following set of questions focus on civil society organizations (CSOs). These include interest groups, labor unions, religiously inspired organizations (if they are engaged in civic or political activities), social movements, professional associations, and classic non-governmental organizations (NGOs), but *not* businesses, political parties, government agencies, or religious organizations that are primarily focused on spiritual practices. A CSO must also be at least nominally independent of government and economic institutions.

Civil society organization – Historical clarification: The following set of questions focus on civil society organizations (CSOs). These include interest groups, labor unions, religiously inspired organizations (if they are engaged in civic or political activities), social movements, professional associations, and classic non-governmental organizations (NGOs), but not businesses, political parties, government agencies, or religious organizations that are primarily focused on spiritual practices. A CSO must also be at least nominally independent of government and economic institutions.

If no CSOs exist at all for a particular time period, code the following relevant questions as giving the "lowest score" (indicating, for instance, strong repression or no consultation, a 0).

Religious organizations: In this section, we ask two questions regarding religious organizations. These may be religiously inspired civil society organizations (CSOs) or organizations whose purpose is primarily spiritual.

4.1.7.1 CSO entry and exit (v2cseeorgs)

Long tag: vdem_cy_v2cseeorgs

Original tag: v2cseeorgs

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Michael Bernhard

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: To what extent does the government achieve control over entry and exit by civil society organizations (CSOs) into public life?

RESPONSES:

0: Monopolistic control. The government exercises an explicit monopoly over CSOs. The only organizations allowed to engage in political activity such as endorsing parties or politicians, sponsoring public issues forums, organizing rallies or demonstrations, engaging in strikes, or publicly commenting on public officials and policies are government-sponsored organizations. The government actively represses those who attempt to defy its monopoly on political activity.

1: Substantial control. The government licenses all CSOs and uses political criteria to bar organizations that are likely to oppose the government. There are at least some citizen-based organizations that play a limited role in politics independent of the government. The government actively represses those who attempt to flout its political criteria and bars them from any political activity.

2: Moderate control. Whether the government ban on independent CSOs is partial or full, some prohibited organizations manage to play an active political role. Despite its ban on organizations of this sort, the government does not or cannot repress them, due to either its weakness or political expedience.

3: Minimal control. Whether or not the government licenses CSOs, there exist constitutional provisions that allow the government to ban organizations or movements that have a history of anti-democratic action in the past (*e.g.* the banning of neo-fascist or communist organizations in the Federal Republic of Germany). Such banning takes place under strict rule of law and conditions of judicial independence.

4: Unconstrained. Whether or not the government licenses CSOs, the government does not

impede their formation and operation unless they are engaged in activities to violently overthrow the government.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 1-15.

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Michael Bernhard

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: Does the government attempt to repress civil society organizations (CSOs)?

RESPONSES:

0: Severely. The government violently and actively pursues all real and even some imagined members of CSOs. They seek not only to deter the activity of such groups but to effectively liquidate them. Examples include Stalinist Russia, Nazi Germany, and Maoist China.

1: Substantially. In addition to the kinds of harassment outlined in responses 2 and 3 below, the government also arrests, tries, and imprisons leaders of and participants in oppositional CSOs who have acted lawfully. Other sanctions include disruption of public gatherings and violent sanctions of activists (beatings, threats to families, destruction of valuable property). Examples include Mugabe's Zimbabwe, Poland under Martial Law, Serbia under Milosevic.

2: Moderately. In addition to material sanctions outlined in response 3 below, the government also engages in minor legal harassment (detentions, short-term incarceration) to dissuade CSOs from acting or expressing themselves. The government may also restrict the scope of their actions through measures that restrict association of civil society organizations with each other or political parties, bar civil society organizations from taking certain actions, or block international contacts. Examples include post-Martial Law Poland, Brazil in the early 1980s, the late Franco period in Spain.

3: Weakly. The government uses material sanctions (fines, firings, denial of social services) to deter oppositional CSOs from acting or expressing themselves. They may also use burdensome registration or incorporation procedures to slow the formation of new civil society organizations and sidetrack them from engagement. The government may also organize Government Organized Movements or NGOs (GONGOs) to crowd out independent organizations. One example would be Singapore in the post-Yew phase or Putin's Russia.

4: No. Civil society organizations are free to organize, associate, strike, express themselves, and to criticize the government without fear of government sanctions or harassment.

SCALE: Ordinal, converted to interval by the measurement model.

NOTES: For reasons of consistency, as of December 2014, responses to this question are reversed so that the least democratic response is "0" and the most democratic is "4".

DATA RELEASE: 1-15.

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Michael Bernhard

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: Among civil society organizations, are there anti-system opposition movements?

CLARIFICATION: An anti-system opposition movement is any movement — peaceful or armed — that is based in the country (not abroad) and is organized in opposition to the current political system. That is, it aims to change the polity in fundamental ways, *e.g.*, from democratic to autocratic (or vice-versa), from capitalist to communist (or vice-versa), from secular to fundamentalist (or vice-versa). This movement may be linked to a political party that competes in elections but it must also have a “movement” character, which is to say a mass base and an existence separate from normal electoral competition.

If there are several movements, please answer in a general way about the relationship of those movements to the regime.

RESPONSES:

0: No, or very minimal. Anti-system movements are practically nonexistent.

1: There is only a low-level of anti-system movement activity but it does not pose much of a threat to the regime.

2: There is a modest level of anti-system movement activity, posing some threat to the regime.

3: There is a high level of anti-system movement activity, posing substantial threat to the regime.

4: There is a very high level of anti-system movement activity, posing a real and present threat to the regime.

ORDERING: If coded “0”, skip the following questions focused on anti-system movements.

4.1.8 V-Dem Indicators - Exclusion

Instructions to the coders (as shown in the surveys)

Exclusion:

The following survey contains questions pertaining to exclusion. Political, economic and social well-being may depend on whether groups or individuals are excluded from positions of power, the state's protection of rights and freedoms, access to public goods and services, and opportunities to work or do business with the state.

Please bear in mind the following definitions as you respond to questions on this survey:

Exclusion is when individuals are denied access to services or participation in governed spaces based on their identity or belonging to a particular group. It is not necessary for all members of a group to be excluded in order for group-based exclusion to occur. Exclusion occurs even when only a single individual is excluded based on her or his identity or membership (perceived or actual) in a particular group.

Political groups are defined as those who are affiliated with a particular political party or candidate, or a group of parties/candidates. A common form of partisan exclusion is when state services or regulations are implemented in a way that seeks to reward the incumbent's political supporters and punish non-supporters.

Socio-Economic position defines groups based on attributes of wealth, occupation, or other economic circumstances such as owning property. Exclusion of economic groups occurs when, for example, those who are not property owners are restricted from voting, or when fees associated with justice, health or education are set at a rate that is unaffordable for poorer individuals.

Social group is differentiated within a country by caste, ethnicity, language, race, region, religion, migration status, or some combination thereof. (It does not include identities grounded in sexual orientation, gender, or socioeconomic status.) Social group identity is contextually defined and is likely to vary across countries and through time. Social group identities are also likely to cross-cut, so that a given person could be defined in multiple ways, *i.e.*, as part of multiple groups. Nonetheless, at any given point in time there are social groups within a society that are understood - by those residing

within that society - to be different, in ways that may be politically relevant. Contrast Identity group.

Geographic group refers to those living in rural or urban areas. Urban areas are defined as an area that meets the following conditions: population density exceeds a threshold of 150 persons per square kilometer and there is access to a sizeable settlement of 50,000 people or more within some reasonable travel time, for example 60 minutes by road. (World Development Report, 2009: 54).

4.1.9 V-Dem Indicators - Legitimation

Instructions to the coders (as shown in the surveys)

Legitimation strategies:

Governments make legitimacy claims—provide justifications for the form of rule under which they govern. In the following section we are interested in the nature of the legitimacy claims made by the sitting government. Please note that the government's claims to legitimacy - their legitimation strategies - are the object of inquiry here. We are not asking you to assess how ordinary people judge the legitimacy of their rulers. Do not assume that governments make legitimacy claims on only one basis. We are interested in multi-track and hybrid legitimation strategies. The regime is understood as a set of formal and/or informal rules that govern the choice of political leaders and their exercise of power. The government is understood as the chief executive along with the cabinet, ministries, and top civil servants.

QUESTION: To what extent does the current government refer to the legal norms and regulations in order to justify the regime in place?

CLARIFICATION: This question pertains to legal norms and regulations as laid out for instance in the constitution regarding access to power (e.g. elections) as well as exercise of power (e.g. rule of law). Electoral regimes may score high on this question as well as non-electoral regimes that emphasize their rule-boundedness.

RESPONSES:

0: Not at all.

1: To a small extent.

2: To some extent but it is not the most important component.

3: To a large extent but not exclusively.

4: Almost exclusively.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 9-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see V-Dem Methodology).

COUNTRY-YEAR AGGREGATION: Day-weighted mean

CITATION: Pemstein et al. (2024); Coppedge et al. (2025b).

YEARS: 1900-2023

4.1.10 V-Dem Indicators - Civic and Academic Space

Instructions to the coders (as shown in the surveys)

Civic and Academic Space:

In this survey, we ask you to assess several issues concerning the space for and state of civil society and academia. First, we ask about some general issues such as polarization and peaceful assembly. Then, we probe into mobilization for mass events and associations. Finally, we ask you to consider questions related to academia.

4.1.10.1 Political violence (v2caviol)

Long tag: vdem_cy_v2caviol

Original tag: v2caviol

Dataset citation: Coppedge et al. (2025b), Coppedge et al. (2025a)

Variable citation: Pemstein et al. (2024), Coppedge et al. (2025b)

Merge scores:

Non-missing observations in original unit: Sum: 18996, Percent: 68.49

Non-missing observations in chosen unit: Sum: 18996, Percent: 63.38

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Katrin Kinzelbach

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: How often have non-state actors used political violence against persons this year?

CLARIFICATION: We understand political violence as the use of physical force to achieve political objectives by non-state actors. The restriction to political objectives excludes profit-driven crime-related violence, for instance. By non-state actors we refer to individuals or entities that are not formally part of the state. Thus, politically oriented militias and youth groups count as non-state actors even though they might potentially be informally affiliated with the ruling party or the state. Political violence against persons excludes psychological and symbolic violence (e.g. destruction of objects).

RESPONSES:

0: Not at all. Non-state actors did not use political violence.

1: Rare. Non-state actors rarely used political violence.

2: Occasionally. Non-state actors occasionally used political violence.

3: Frequently. Non-state actors frequently used political violence.

4: Often. Non-state actors often used political violence.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 10-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see *V-Dem Methodology*).

COUNTRY-YEAR AGGREGATION: Day-weighted mean

Description:

VARIABLE TYPE: C

PROJECT MANAGER(S): Katrin Kinzelbach

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: To what extent do state authorities respect and protect the right of peaceful assembly?

CLARIFICATION: This question focuses on the ability to assemble publically in practice. An assembly is “an intentional and temporary presence of a number of individuals in a public place, for a common expressive purpose” (ODIHR and Venice Commission of the Council of Europe 2010). Authorities may limit the right to assembly only if limitations are necessary in the interests of national security or public safety, public order, the protection of public health or morals, or the protection of the rights and freedoms of others, and are lawful, necessary, and proportionate to the aim pursued. Such reasonable and legal restrictions should not be considered when answering. However, if there is evidence that restrictions are used as a pretext for political reasons, this evidence should be considered.

RESPONSES:

0: Never. State authorities do not allow peaceful assemblies and are willing to use lethal force to prevent them.

1: Rarely. State authorities rarely allow peaceful assemblies, but generally avoid using lethal force to prevent them.

2: Sometimes. State authorities sometimes allow peaceful assemblies, but often arbitrarily deny citizens the right to assemble peacefully.

3: Mostly. State authorities generally allow peaceful assemblies, but in rare cases arbitrarily deny citizens the right to assemble peacefully.

4: Almost always. State authorities almost always allow and actively protect peaceful assemblies except in rare cases of lawful, necessary, and proportionate limitations.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 10-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see *V-Dem Methodology*).

4.1.11 Other Indices Created Using V-Dem Data - Accountability

The *Accountability Index* uses V-Dem data but is not a subcomponent of the V-Dem Democracy Indices. Please see Appendix A of the V-Dem codebook (<https://www.v-dem.net/static/website/img/refs/codebookv12.pdf>) for an overview of all indices, component-indices, and lower-level indices.

4.1.11.1 Horizontal accountability index (v2x_horacc)

Long tag: vdem_cy_v2x_horacc

Original tag: v2x_horacc

Dataset citation: Coppedge et al. (2025b), Coppedge et al. (2025a)

Variable citation: Lührmann et al. (2020), Coppedge et al. (2025b)

Merge scores:

Non-missing observations in original unit: Sum: 19362, Percent: 69.81

Non-missing observations in chosen unit: Sum: 19362, Percent: 64.6

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

VARIABLE TYPE: D

PROJECT MANAGER(S): Kyle L. Marquardt and Valeriya Mechkova

ADDITIONAL VERSIONS: *_osp, *_codelow, *_codehigh

QUESTION: To what extent is the ideal of horizontal government accountability achieved?

CLARIFICATION: Horizontal accountability concerns the power of state institutions to

oversee the government by demanding information, questioning officials and punishing improper behavior. This form of accountability ensures checks between institutions and prevents the abuse of power. The key agents in horizontal government accountability are: the legislature; the judiciary; and specific oversight agencies such as ombudsmen, prosecutor and comptroller generals.

SCALE: We provide two versions of this index. The first is the normalized output from the hierarchical latent variable analysis. It is on an unbounded interval scale. The second, denoted by *_osp, is a version of this output which we scale using a standard normal cumulative distribution function. It is thus scaled low to high (0-1).

SOURCE(S): v2juhcind v2juncind v2juhccomp v2jucomp v2exrescon v2lgotovst v2lginvstp v2lgbicam v2lgqstexp

DATA RELEASE: 7-15.

AGGREGATION: We capture the extent to which the judiciary, the legislature and other oversight agencies hold the government to account by modeling each of these factors as separate hierarchical nodes.

The judiciary node speaks to the degree to which members of the executive compromise horizontal accountability by "unlawfully encroaching" on the legitimate authority of the judiciary branch. To capture that we use the indicators from the V-Dem judicial constraints on the executive index (v2x_jucon).

To model the degree to which a legislature facilitates horizontal accountability we model whether or not a legislature exists a dichotomized version of v2lgbicam, and legislature activities as a function of this variable. The key function of a legislature in terms of horizontal accountability is to scrutinize government officials' potential misconduct by demanding information for their policies and decisions, and taking specific actions in case of irregularities. We use as baseline the indicators from the V-Dem legislative constraints on the executive index (v2xlg_legcon): the degree to which: 1 the legislature routinely questions the executive (v2lgqstexp); and 2 a legislature is likely to investigate and produce a decision unfavorable to the executive, if the latter were engaged in an illegal or unethical activity (v2lginvstp). We exclude the legislature opposition parties (v2lgoppart) as this aspect is part of vertical accountability.

Finally, we include a variable regarding the degree to which other state bodies comptroller general, general prosecutor, or ombudsman are likely to investigate and report on potential illegal or unethical activities on part of the executive (v2lgotovst).

CITATION: Lührmann et al. (2020); Coppedge et al. (2025b)

YEARS: 1900-2024

CONVERGENCE: All estimates of country-year overall accountability converged using standard VDem criteria. About 2.6percent of the model parameters in the overall accountability index did not converge using the standard V-Dem criterion ($R\text{-hat} < 1.01$). However, all parameters converge using the more relaxed criterion of $R\text{-hat} < 1.1$.

4.1.12 Other Indices Created Using V-Dem Data - Civil Liberties

The *Civil Liberties Index* uses V-Dem data but is not a subcomponent of the V-Dem Democracy Indices. Please see Appendix A of the V-Dem codebook (<https://www.v-dem.net/static/website/img/refs/codebookv12.pdf>) for an overview of all indices, component-indices, and lower-level indices.

4.1.12.1 Physical violence index (v2x_clphy)

Long tag: vdem_cy_v2x_clphy

Original tag: v2x_clphy

4.1.15 Digital Society Survey - State Internet Regulation Capacity and Approach

The Digital Society Survey, designed by the Digital Society Project, contains questions pertaining to the political environment of the internet and social media. The data collected through expert-coded surveys provides information on topics related to coordinated information operations, digital media freedom, online media polarization, social cleavages as well as state internet regulation capacity and approach.

Principal investigators for the Digital Society Project are Valeriya Mechkova, Daniel Pemstein, Brigitte Seim, Steven Wilson.

For more information, please visit www.digitalsocietyproject.org.

Instructions to the coders (as shown in the surveys)

Digital society: The following survey contains questions pertaining to the political environment of the Internet and social media. Please bear in mind the following definitions as you respond to questions on this survey:

The government and its agents include official government organs, such as bureaucracies, courts, intelligence services, and the military, but also unofficial agents, such as officially unaffiliated cyber-warfare operatives who perform services, even “off-book” work, on behalf of the government.

Major political parties include the group of political parties that hold a significant number of seats in national legislative body(-ies), or earn a significant number of votes in elections for the executive. When we ask you to consider “major political parties,” you do not need to consider parties that run in elections but receive only a small minority of seats or votes, or those that receive no seats at all.

We define the Internet as all information that people access over public and private digital networks, worldwide. The Internet includes both publicly accessible digital spaces and private or gated information transmission platforms. The Internet does not include traditional media transmission mechanisms such as paper, television, traditional voice telephone, and radio.

Social media are a subset of Internet platforms that enable normal individuals to create and share content with networks of other people. Social media platforms are available to the public, although content on such networks may be shared privately within subgroups of users. Social media includes both publicly visible, or semi-public platforms, like Facebook, Flickr, Friendster, Google+, Instagram,

Myspace, LinkedIn, Twitter, VKontakte, and Weibo and private social networking and messaging platforms like Signal, Slack, Snapchat, or WhatsApp.

Domestic online media is any media source originating in the country in question. For example, the New York Times' website is domestic online media in the United States, but not in India, even though it operates bureaus in India. Media includes any source reporting on current events or political issues, ranging from well-established brands to newsletters and websites run by an individual.

Cyber security threats include penetration of private digital networks, using means ranging from exploiting software vulnerabilities, password cracking, or social engineering (e.g., tricking individuals into revealing passwords or other information necessary to break into a digital system) to obtain information or disrupt an organization or individual's use of digital networks and tools. They also include unauthorized alterations of an individual or organization's digital presence, such as defacing websites and commandeering social media accounts. These threats range from unsophisticated (e.g., exploitation of failure to password protect private networks or use of common passwords by authorized users, and spear phishing) to moderate (e.g., embedding malicious code in emails or exploiting well-known software flaws that organizations have failed to patch), to sophisticated (e.g., exploiting unknown exploits in commonly used software or even embedding exploits into commercial systems unbeknownst to their creators).

Clarification: When we discuss shutting down online content, please consider instances where a website (or websites) have been taken entirely offline as well as instances where a website (or websites) have been slowed down or had access similarly intentionally inhibited, such that use of this website is challenging. In other words, both outright shutting down and more subtle measures that inhibit access should be considered when answering these questions.

Clarification: When we discuss "censorship" or "censoring" content online, we are not concerned with censorship of topics such as child pornography, highly classified information such as military or intelligence secrets, or defamatory speech, unless this sort of censorship is used as a pretext for censoring political information or opinions.

4.1.15.1 Internet legal regulation content (v2smregcon)

Long tag: vdem_cy_v2smregcon

Original tag: v2smregcon

Lost observations in chosen unit: Sum: 0 Percent: 0

Description:

VARIABLE TYPE: C

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: What type of content is covered in the legal framework to regulate Internet?

RESPONSES:

0: The state can remove any content at will.

1: The state can remove most content, and the law protects speech in only specific, and politically uncontroversial contexts.

2: The legal framework is ambiguous. The state can remove some politically sensitive content, while other is protected by law.

3: The law protects most political speech, but the state can remove especially politically controversial content.

4: The law protects political speech, and the state can only remove content if it violates well-established legal criteria.

SCALE: Ordinal, converted to interval by the measurement model.

QUESTION: What does the legal framework to protect Internet users' privacy and their data stipulate?

RESPONSES:

0: The legal framework explicitly allows the government to access any type of personal data on the Internet.

1: The legal framework explicitly allows the government to access most types of personal data on the Internet.

2: The legal framework explicitly allows the government to access many types of personal data on the Internet.

3: The legal framework explicitly allows the government to access only a few types of personal information on the Internet.

4: The legal framework explicitly allows the government to access personal information on

the Internet only in extraordinary circumstances.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 9-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see V-Dem Methodology).

COUNTRY-YEAR AGGREGATION: Day-weighted mean

CITATION: Pemstein et al. (2024); Coppedge et al. (2025b).

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: Does the legal framework provide protection against defamatory online content, or hate speech?

RESPONSES:

0: No. The law provides no protection against Internet defamation and hate speech.

1: Not really. The law provides a weak protection and to very limited range of circumstances.

2: Somewhat. The law provides some protection against Internet defamation and hate speech but in limited circumstances, or only to particular groups of people.

3: Mostly. The law provides protection against Internet defamation and hate speech under many circumstances, and to most groups of people.

4: Yes. The law provides comprehensive protection against Internet defamation and hate speech.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 9-15.

CROSS-CODER AGGREGATION: Bayesian item response theory measurement model (see V-Dem Methodology).

ADDITIONAL VERSIONS: *_osp, *_ord, *_codelow, *_codehigh, *_sd, *_mean, *_nr

QUESTION: To what extent do elites abuse the legal system (e.g., defamation and copyright law) to censor political speech online?

RESPONSES:

0: Regularly. Elites abuse the legal system to remove political speech from the Internet as regular practice.

1: Often. Elites commonly abuse the legal system to remove political speech from the Internet.

2: Sometimes. Elites abuse the legal system to remove political speech from the Internet about half the time.

3: Rarely. Elites occasionally abuse the legal system to remove political speech from the Internet.

4: Never, or almost never. Elites do not abuse the legal system to remove political speech from the Internet.

SCALE: Ordinal, converted to interval by the measurement model.

DATA RELEASE: 9-15.
